

Care Me Introduces Powerful Electric Callus Remover As Potential Holiday Gift

October 01, 2015

October 01, 2015 - PRESSADVANTAGE -

Norcross, Georgia based company Care Me has introduced two models of electric callus removers that they are citing as potential gift ideas for the upcoming holiday season. The company released the first model earlier in the year, with the second added to their product lineup just recently. Both products are currently on the Amazon marketplace.

With the holiday shopping season just weeks away, the company stated that they thought the timeline perfect for introducing a newly upgraded model of their previously popular callus remover. They also stated that they felt the callus removers would make excellent gift ideas for those hard to buy for people.

A spokesperson for Care Me recently stated, "We have and continue to outdo our competitors by offering a six month warranty on all of our products. Our warranty covers workmanship and defects. We also provide excellent customer service and innovative technology to constantly improve our products and remain known to all as an industry leader."

Care Me is a small family owned and operated company that provides the two callus removers for sale on the

Amazon marketplace. Model CM-202 is the newer release, and is an upgraded version of the previously released CM-201 model.

The older model has been released for some time now, and currently has more than 900 positive reviews from customers. The company states that they simply felt it was time to upgrade the product, to offer customers more benefits. The new model is available now, just in time for the holiday shopping season, which begins at the end of October for most consumers.

"We never stop at where we are today. That's why we upgraded our callus remover. We're expanding our product lines to add even more quality products to make people look better, feel better and live better, because that's our slogan," stated the Care Me representative.

Care Me provides a number of health and beauty products to customers around the world. More about the company can be seen on their official website, and customers interested in purchasing or learning more about the callus removers can find them on the company website.
