

Mersey Garages Offers Car Service for Jaguar Automobiles

July 28, 2020

July 28, 2020 -

Mersey Garages, an independent garage based in Liverpool, UK, has announced that they offer quality car servicing for Jaguar cars. They point out that they always make sure to use quality parts and they also offer a free car pick up and drop off service. They offer three levels of Jaguar service: interim, full, and major. These levels of service have the purpose of complying with the specific needs of cars, whatever their condition, age, or history. All of their work is provided with a Quality and Price Guarantee.

Wade Pollitt, a spokesperson for Mersey Garages, says, "All work and repairs are completed to the highest standard according to manufacturer's specifications. Your service warranty will not be affected as we will update your digital service record."

He continues, "We work with main part suppliers to ensure the best prices possible on all Jaguar parts, so we can provide the best rates on all of our services. Call us today if you require any specific information or book your Jaguar car service in Liverpool now by selecting one of our servicing tiers below."

For Jaguar automobiles, they offer various kinds of services. These include the Jaguar Ministry of Transport

(MOT) test, Jaguar repairs and maintenance, Jaguar servicing, Jaguar clutches, Jaguar gearbox and transmission, Jaguar exhausts, Jaguar parts, and Jaguar accessories.

Mersey Garages is open to serve car owners six days a week for MOT testing. Customers can book online to reserve their preferred time, using their state-of-the-art online booking system. When a customer specifies a date and time, assuming that the preferred date and time is still open, this will automatically be booked directly into their diary. Customers will get an instant booking confirmation that includes all the information they will need. And in the event that the car fails the MOT test, they can help in getting the car back on the road. They will provide the customer with a list of repairs that would be needed to get the vehicle up and running again. Once the customer approves the quote provided, they will promptly get to work on getting the car back on the road.

Mersey Garages also offers various tyres for the summer or winter season, for heavy load and 4x4 vehicles. They also run flat tyres should someone get a puncture. They stock a broad variety of tyre brands including BF Goodrich, Bridgestone, Avon, Constancy, Continental, Centara, Evergreen, Firestone, Davanti, Landsail, Michelin, Hankook, and more.

They want to point out that car owners should make sure that their tyres can be allowed legally on the road. The grooves of the tread pattern of every tyre fitted to the car should have a depth of at least 1.6 mm throughout a continuous band made of the middle three quarters of the width of the tread and around the whole outer circumference of the tyre for it to be legal. There should also be no cut or break in the rubber of the tyre that is more than 25 mm long or 10 percent of the section width in length that exposes the casing cords. Using illegal tyres could result into a prosecution, a driving licence penalty, or a heavy fine. Mersey Garages can help ensure that the tyres fitted to the car are legal.

And finally, they can offer a broad range of vehicle repairs, including MOT repairs. Such repairs are not limited to the tyres, brakes, wheel alignment, and exhausts, but may include many other mechanical and electrical items.

Mersey Garages is a local family run garage that is located in the Liverpool city centre. And aside from the Jaguar cars, they also provide professional car servicing for a broad range of car brands, such as Audi, BMW, Citroen, Dacia, Fiat, Ford, Honda, Hyundai, Jeep, Kia, Land Rover, Lexus, Mazda, Mercedes Benz, MG, Mini, Mitsubishi, Nissan, Peugeot, Range Rover, Renault, Saab, Seat, Skoda, Smart, Subaru, Suzuki, Toyota, Vauxhall, Volkswagen, and Volvo.

Those who are interested in car servicing in Liverpool and neighbouring areas may want to check out the

Mersey Garages website, or contact them through the telephone, or via email.
