

# Roofer In Ellicott City Stands Ready To Serve Community

*July 31, 2020*

July 31, 2020 - PRESSADVANTAGE -

Ellicott City, MD based Alpha Design Services is reaching out to reassure their community that the company will continue to be available over the coming months. As a result, those looking for a reliable roofer in Ellicott City may contact the home remodeling contractor if they require roofing services of any kind.

"We are living in unprecedented times," observes Angel Casas of Alpha Design Services. "The COVID-19 pandemic and the ensuing fallout has changed many aspects of our daily lives, from the way we work to the way we go shopping to groceries and much more. Similarly, we have seen many businesses being forced to shutter, at least for the time being, and many may not be able to come back even after the current crisis has concluded. However, we would like to let each member of our community know that we are still here for them when they need us, and no job is too great or too small for us to handle. Your roof is a vital part of your home, and we will do our utmost to be there for you when you need us."

As part of this initiative, the team at Alpha Design Services is working hard to ensure that their clients experience no noticeable depreciation in service. This effectively means that they have reorganized their schedules to enable their team to respond as closely as they would prior to the onset of the pandemic. The roofing company in Ellicott City provides home roofing renovation to Clarksville, Columbia, Germantown, Laurel, Rockville, Silver Spring, Westminster, Sykesville, Eldersburg, New Windsor Hampstead, Annapolis, Baltimore, Gaithersburg, Frederick, Catonsville and Owings Mills.

Angel continues, "Many of our clients have successfully been able to shift their working environment to their homes and telecommute as a means of maintaining safe social distancing from their colleagues. Many others are working on adjusted shifts or simply waiting for their place of business to reopen once more. However, the presence of a crisis does not mean that homeowners have no opportunity to take advantage of the situation for their benefit."

One of the major concerns clients often bring the company, according to Casas, is the fact that they tend to be unable to supervise any home remodeling projects themselves. Despite wanting a new roof, for instance, many homeowners prefer to move forward only if they have the time to work closely with the contractor in question. Angel says, "Your home is where your heart is, and many of our clients dedicate their heart and soul when they work with us to draw up new plans for the renovations they have in mind. While we guarantee that you can trust us, and trust us absolutely, we understand how much a home renovation project can mean to our clients. This is why we encourage them to take this chance and get their dream project started. If you've been sitting on an idea for a new roof for the past few years, we urge you to get in touch with us to see what can be done now that you have the time to pursue it yourself."

Alpha Design Service has earned high praise for their work from their clients. A 5-Star review by George Atlas states, "I would highly recommend Alpha Design Services. They did exceptional work from beginning to end. They were always efficient, professional and friendly, and they took great pride in their work. The job was done in a timely manner, and I am more than pleased. The office staff were always helpful and really friendly. This company goes above and beyond to meet your satisfaction. If you need to hire a roofing company, call Alpha Design Services and ask for Angel. Thank you, Alpha Design Services. Excellent service!"

Those looking for roof contractors in Ellicott City are welcome to reach out to Angel Casas of Alpha Design Services to get started. More information can be found on the company's website, and clients may direct any further inquiries to the company's social media platforms as well.
