

Dentist In Andover Offers Teeth Whitening Treatment For Private Hampshire Patients

July 30, 2020

July 30, 2020 - PRESSADVANTAGE -

Andover based Dental Concepts is reaching out to the wider community to announce that they provide teeth whitening treatments for private Hampshire patients. More information about their teeth whitening services can be found at the following link:
<http://www.dental-concepts.com/teeth-whitening-andover-whitchurch-hampshire/>.

As Dental Concepts explains, human teeth are continuously stained by the foods and drinks that a person consumes on a daily basis. If that person is a smoker, their teeth can further be stained and lose their natural bright, white shade. Teeth whitening is a simple, non-invasive cosmetic dental treatment that can fix this issue and change the colour of a person's natural tooth enamel in order to enhance the beauty of their smile. The degree of whiteness achieved with teeth whitening procedures will vary from patient to patient and the type of bleaching process chosen.

Dr. Manish Chitnis, owner of and dentist at Dental Concepts, says, "Teeth whitening is a very common

procedure. In fact, more than 100,000 people get teeth whitening treatments in the UK every year. It's understandable, of course, because we all want to have a great smile, and no matter how well your dental hygiene is, no matter how often you brush, your teeth can very easily get stained. While there are a number of ways to whiten your teeth, including over-the-counter whitening products, such as whitening toothpastes to rinses to whitening strips and other types of DIY at-home treatments and teeth whitening carried out in beauty salons, your best course of action will always be to go to a dentist. Over-the-counter products aren't reliable, and any treatments at salons are more than likely carried out by untrained staff or staff without dental qualifications which would put your oral health at risk and are also illegal. Going to a dentist, however, will always be both safe and effective.

In addition to teeth whitening services, Dental Concepts provides a number of other dental procedures. These include dental implants, restorative dentistry, preventative dentistry, general dentistry and more. The clinic also provides select face & beauty treatments such as wrinkle-removal injections, Juvederm and so on. Dr. Chitnis says, "At Dental Concepts, we provide a wide and comprehensive range of dental services. In fact, I think we can quite confidently say that we are one of the best option for any dental procedure in all of Andover."

The services provided by Dental Concepts have earned the clinic a lot of praise from their patients. On the Google platform, Dental Concepts has a near perfect rating of 4.9 out of 5 stars, and the reviews that contributed to this score can be viewed here: <http://g.page/dentalconceptsandover>. In her 5-Star review, Michelle Moore says, "Dr. Manish and his team at Dental Concepts have gone the extra mile to help me with my dental problems. All the staff have been friendly and efficient, but Dr Manish in particular has displayed the quality skills of a surgeon with a kindness of heart that is rarely seen these days. A thorough examination awaits you in an immaculately clean and well presented, state-of-the-art practice. Don't hesitate to ask for help when you need it."

Meanwhile, Lucy Harris says in another 5-Star review, "Recently, my 62 year old 'milk tooth' broke off, leaving me with the dread of having the root taken out. Manish was amazing. Knowing me from previous treatments, he explained that he would build a new tooth on the remains of my old one. The work was done in an hour, the result was amazing. I couldn't tell the difference from the one next to it. No pain, no stress and truly wonderful to have my smile back just before Christmas. Manish is an amazing person and an outstanding dentist. I have no hesitation in recommending the services of Dental Concepts to anyone, especially nervous or anxious patients."

Those who want to learn more about Dental Concepts and their services are welcome to visit the company's website at the following link: <http://www.dental-concepts.com/>. They encourage interested parties to get in

touch with Dr. Manish Chitnis directly via email or phone. The clinic can also be reached through the contact form on their website. Dental Concepts maintains a presence on Facebook where they frequently post updates, share media and communicate with their patients.
