

Lakefront Family Dentistry Welcomes Dr. Mark Phillippe, DDS

July 30, 2020

July 30, 2020 -

Lakefront Family Dentistry, a luxury dental practice serving Riverside County, is pleased to announce that Dr. Mark Phillippe has joined their team.

A graduate of the University of the Pacific's Arthur A. Dugoni School of Dentistry, Dr. Phillippe was inducted into the dental honor society Tau Kappa Omega. After completing his post-graduate dentistry residency with the U.S. Army, Dr. Phillippe served as an active duty dentist at Fort Carson for 4+ years. Upon leaving the military, Dr. Phillippe pursued additional dental training, which prepared him to provide specialty dental care for his patients.

Dr. Phillippe was inspired to pursue a healthcare career after seeing the impact that his parents' physical therapy practice had on their local community. "I chose to pursue dentistry because I love taking care of people," said Dr. Phillippe. "Dental treatment can be intimidating, and I enjoy making it a positive experience for my patients."

Dr. Phillippe knew that Lakefront Family Dentistry was the right fit for him because of the practice's family atmosphere. "Our team loves taking care of people," said Phillippe. "We enjoy creating a comfortable experience and creating a plan that helps each patient have a beautiful smile that they are proud of."

Lakefront Family Dentistry offers a full array of dental services to residents of Southern California, which includes Canyon Lake, Corona, Lake Elsinore, Menifee, Murrieta, Sun City, Temecula, and Wildomar. In addition to professional teeth cleaning, the practice offers cosmetic dentistry services, such as crowns and veneers.

"One of the things that differentiates Lakefront Family Dentistry from other practices is that we invest in the most advanced technology and finest materials," said Dr. Derek B. Hauser, founder of the practice. "One such investment is our CEREC in-house milling machines." With CEREC dentistry, patients can get porcelain crowns or veneers in as little as one to two days.

The office also invested in Solea laser—a revolutionary dental laser that replaces outdated dental methods. "Patients love the Solea because treatments are virtually painless," said Dr. Hauser. The Solea laser allows Dr. Hauser and Dr. Phillippe to perform hard and soft tissue procedures—ranging from treating simple cavities to complex surgeries.

"Making our patients feel comfortable is one of our top priorities," said Dr. Hauser. "We know many people fear a visit to the dentist. That's why we offer a wide range of services to keep our patients relaxed and comfortable. These services include a visit from Stella, our amazing therapy dog, or the option to choose oral conscious sedation."

Lakefront Family Dentistry recently updated the office, which included the purchase of new reception room furniture and top-of-the-line dental chairs. "We are dedicated to providing our patients with the highest quality of care in an atmosphere that is relaxing and stress-free," said Dr. Hauser. "When I interviewed Dr. Phillippe, I knew he would be a wonderful addition to Lakefront Family Dentistry. His experience, skills, and attitude are a perfect fit for the family-like atmosphere we've created here."
