

Coventry Invisalign Dentist Offers Virtual Consultations To Private Patients

August 06, 2020

August 06, 2020 -

Principal cosmetic dentist at Verum Cosmetic Dentists in Coventry, United Kingdom, Dr Chetan Mathias, has started a brand new virtual consultation service for people interested in starting an Invisalign treatment. This remote consultation service fits the current times that require social distancing.

Those patients in Coventry and surrounding areas who find it challenging to get an appointment for visiting a dental surgery to get teeth straightening for crooked or gappy smile can now take comfort in knowing that it has now been made possible to get a virtual consultation without leaving the comfort of their home and even without visiting a dental practice. The only tool that one needs to participate in a virtual consultation is a mobile smart phone with a camera, something that most people do own nowadays.

Virtual consultation is a brand new service launched by Dr Chetan Mathias, who is the principal cosmetic dentist at Verum Cosmetic Dentists. To make it even more attractive for prospect patients, Dr Mathias is also adding teeth whitening to the Invisalign treatment without charging extra for the treatment. This is a major

incentive that Dr Mathias has offered for starting the Invisalign treatment journey with an eConsultation.

Patients seeking to get started with an Invisalign treatment can do so with a remote consultation by visiting the following link on the Verum Cosmetic Dentists website: https://www.verumcosmeticdentists.co.uk/virtual-consultation.

Despite the challenging times of social distancing, virtual consultations make it easier for anyone to get their dream smile. The following video describes how anyone can avail of the virtual dental consultation offer: http://www.youtube.com/watch?v=_SPnw9R4iso.

Without leaving home, a client seeking Invisalign treatment can get a free, no obligation virtual consultation with Dr Chetan Mathias. He has more than 10 years of valuable experience as cosmetic dentist. Dr Mathias has been awarded the highest "Diamond Provider" status by the Invisalign company for successfully providing teeth straightening treatment to a large number of patients in Coventry. Patients have the comfort of knowing that they are in safe hands at Verum Cosmetic Dentists.

All a patient needs for their remote virtual eConsultation is a smart phone. The first step requires taking a few pictures of their teeth. Each virtual consultation participant will receive instructions that are simple and easy to understand on how to take the photos of their teeth using their mobile phone and submit them for review by Dr Mathias.

Once the submitted photos have been reviewed, the patient will receive a personal dental assessment report together with treatment options as well as acess to a free virtual consultation with Dr Mathias by simply using their mobile phone.

Affordable interest-free monthly payment plans are also provided for Invisalign treatment and are subject to an application. Dr Mathias and his staff inform and help patients who seek assistance for a payment plan.

More videos about various dental treatments provided by Verum Cosmetic Dentists can be viewed in their YouTube channel here: https://www.youtube.com/channel/UC7ONbw_icc0y_7MPsFWo11A.

Anyone in and around Coventry seeking advice through a virtual consultation is encourged to visit the links provided above.
