PagePerfect, a boutique digital marketing agency in Bozeman, Montana, received a positive review from its client Mountain Tactical Company, a firearm precision component manufacturer. The Bozeman SEO agency claims that the positive feedback received clearly demonstrates that its techniques work and bring about a real return on investment for its clients.

A spokesperson for Mountain Tactical says in their review, "After paying a previous company thousands of dollars and receiving zero results, I was skeptical to give another company a chance. After meeting with PagePerfect, I immediately realized they knew what they were doing and I was confident this experience would be better than my last one. During the last 6 months, we have had to add staff to handle the increased order volume, increase production to handle the new wholesale demands, and work on growth strategies we did not anticipate updating for a couple more years. PagePerfect is the real deal in SEO."
