

## **Ethos Spa Skin & Laser Center Offers Dermal Fillers for the Lips**

*August 13, 2020*

August 13, 2020 - PRESSADVANTAGE -

Ethos Spa Skin & Laser Center, based in Summit, NJ, has announced that they are offering some of the best dermal fillers for the lips in New Jersey. They want to point out that these dermal fillers are safe and can be used to quickly minimize fine lines and wrinkles, firm the skin, correct scars, and create symmetry and contours. And one of the most in demand dermal filler procedures at the cosmetic spa is lip injections. This is because lip injections are a less expensive alternative to lip augmentation surgery while being capable of providing similar results.

Hardik Soni, Medical Director of Ethos Spa, Skin and Laser Center, says, "We are the premier cosmetic spa serving New York and New Jersey, and we've helped thousands of people just like you achieve their dream look with dermal fillers. Dermal fillers safely and quickly reduce wrinkles and fine lines, correct scars, firm the skin, and create contours and symmetry. Whether you want to add volume to thin lips or reshape your upper or lower lip, dermal fillers can help. Call Ethos Spa today to request an appointment for a free consultation."

He also wants to point out that dermal fillers are an outpatient procedure, which means that this will require little to no downtime. In addition, the results will typically be noticeable within 24 hours, depending on the kind of dermal filler that was used for the lip enhancement. Those who are interested in learning more about Ethos Spa may want to follow their Facebook page.

Aside from non-surgical lip augmentation, dermal fillers can also have other applications in improving facial features or contours, correcting scars, and reversing the signs of aging. They can be used for facial rejuvenation and sculpting, earlobe and neck rejuvenation, elimination of folds, facial symmetry, scar revision, eye firming, and chin augmentation.

And aside from lip injections, Ethos Spa also offers other non-surgical cosmetic services. These include Botox, laser hair removal, CoolSculpting, Brazilian butt lift, tattoo removal, and other services.

Botox is provided as a skin rejuvenation treatment. It is a protein that is derived from a natural bacterium that is found in nature. It allows the facial muscles and muscles in other parts of the body to relax. The result is that crow's feet, wrinkles, and fine lines are eliminated, thus, leaving behind smooth and soft skin.

Laser hair removal is also provided by Ethos Spa. This allows people to get rid of unwanted hair or hair growing in the wrong places but without having to suffer the inconvenience of shaving, waxing, or plucking. Shaving can result into nicks and cuts, plus the fact that the hair will soon be growing again, resulting into a rough stubble, irritated skin, and possible ingrown hairs. Meanwhile, plucking and waxing are painful procedures. Laser hair removal offers a better way of eliminating unwanted hair on the bikini lines, legs, stomach, shoulders, face, chin, upper lip, back, underarms, neck, arms, and sideburns.

Meanwhile, the Brazilian butt lift is the non-invasive and preferred butt lift solution for women. A key advantage of the Sculptra Brazilian butt lift provided by Ethos Spa is its simplicity. It is a one-step procedure that simply requires the stimulation of the body's production of natural collagen. This is in contrast to invasive surgery where fat is taken from other parts of the body and transferred to the buttocks.

Another important procedure for improving the shape of the body is CoolSculpting. This is used to remove unwanted fat in stubborn areas, thus allowing for a slimmer body. The experienced physicians at Ethos Spa are capable of performing this procedure in just one hour. It can eliminate as much as 25 percent of the fat cells in the treated area and the results are permanent, as long as healthy weight is maintained.

Those who would like to know more about the non-surgical lip augmentation procedure and other services provided at Ethos Spa, Skin and Laser Center may want to visit their website, or contact them through the

telephone, or via email. Information regarding their location and other vital data can be gleaned from their GMB listing.
