

Diamond Rock Spring Water Offers Water Delivery in New Jersey

August 14, 2020

August 14, 2020 - PRESSADVANTAGE -

Diamond Rock Spring Water, which is based in Ridgefield Park, NJ, has announced that they deliver clean drinking water to homes in Bergen, Hudson, Essex, and Union Counties. They are open for both walk-ins and delivery. However, because of COVID-19 restrictions, they have changed their hours of operation to 8:00 am to 3:00 pm, from Monday to Friday, and from 9:00 am to 1:00 pm on Saturdays. They provide natural spring water that is government tested, approved by the FDA, and licensed by the New Jersey Department of Health. They can provide customers with 8 oz., 16.9 oz., 1 liter, 1.5 liter, and single gallon cases of natural spring water. Furthermore, they also offer distilled water in 5 gal. or single gallon bottles.

Richard Picinich, a spokesperson for Diamond Rock Spring Water, says, "We are a family owned and operated business since 1994. My father Mario Picinich, owner of the company, and I, share an ongoing philosophy of providing each customer with quality products, competitive pricing and personal service."

He continues, "Why are we unique? If you call Diamond Rock, Monday thru Friday, during regular business

hours, or Saturday mornings, you will always be able to speak to one of our well-trained personnel. Our company bottles and distributes natural spring water to both residential and commercial accounts throughout New Jersey. There are no binding contracts.?

The natural spring water that they provide is sourced from a pristine area in the Kittatinny Mountains that is protected by land preservation. And for their 3 gallon and 5 gallon bottles of spring water, they offer customers the option to own or lease various kinds of coolers. Those who would like to know more about the company may want to follow their Facebook page.

Diamond Rock Spring Water's home and office water delivery service is exclusive for the Bergen, Hudson, Essex, and Union County areas to allow them to focus their attention to each and everyone of their customers. They provide this kind of service to a broad range of customers, such as athletic clubs, municipalities, vendors, schools, businesses, hospitals, residential homes, and many more. The system is simple: customers call when they require a delivery. A service representative will take customer calls, take note of the delivery order, and remind the customer of the delivery day. And since their delivery trucks are always present in the above-mentioned areas each week, customers will just need to call when they have just started on their last full bottle of water. This will ensure that they will never run out of water.

It is important to note that the Diamond Rock Spring Water bottles and water coolers need periodic cleaning or sanitizing. The bottled water can last for extended periods of time without any change in the quality and taste of the water. However, it is recommended that customers rotate the bottles by using the oldest bottles first. In addition, it is very important to ensure that the bottles are not stored in such a way that they are exposed to direct sunlight. This is because direct sunlight can promote algae growth over a period of time, thus negatively affecting the bottled water.

They are also a direct distributor of all Keurig K-Cups and Brewers. They are capable of providing at least 140 brands of K-Cups. They offer various kinds of coffee and tea. These include the Café Escapes Milk Chocolate Hot Cocoa, Eight O'Clock Colombian Peaks Coffee, Eight O'Clock Original Decaf Coffee, Eight O'Clock Hazelnut Coffee, Eight O'Clock Dark Italian Roast Coffee, Eight O'Clock The Original Coffee, Barista Prima Coffeehouse Colombia Coffee, Barista Prima Coffeehouse Decaf Italian Roast Coffee, Barista Prima Coffeehouse French Roast Coffee, Barista Prima Coffeehouse Italian Roast Coffee, Emeril's Big Easy Bold Coffee, and Bigelow English Breakfast Tea.

Those who are interested in natural spring water delivery may want to check out the Diamond Rock Spring Water website, or contact them on the telephone, or through email. Those who would like to know their location and other key information about the business may want to take a look at their GMB listing.
