

Back to 30 Offers Skin Rejuvenation Treatments

August 14, 2020

August 14, 2020 -
Back to 30, a medical spa in Greenville, SC, has announced that they offer non-surgical skin rejuvenation treatments that allow people to have a more vibrant appearance. The on-site physicians either directly supervise or personally administer all of the medical procedures and consultations. By combining various cosmetic treatments, such as Botox with vitamin supplements, they are committed to helping their clients visibly enhance the feel, appearance, and health of their body and skin, by using the most up-to-date technology possible.

A spokesperson for Back to 30 says, ?We understand that feeling great at any age isn?t just about looking great. With all of the advances in technology, surgery is rarely necessary. We transcend all limits of what skin care can achieve, taking your complexion back in time, with real results, while never having to go under the knife. We commit to being the absolute best provider of hormone therapy and non-invasive advanced aesthetic solutions in the country. We look forward to creating clients for life. No matter which of our locations you visit, you will receive outstanding service and be enthusiastically satisfied with the results.?

Their non-surgical services include: SkinPen®, Dermasweep®, chemical peels including VI Peel, laser hair

removal, Clear + Brilliant® laser treatment, IPL® photorejuvenation, Voluma® skin tightening, BOTOX® Cosmetic, JUVÉDERM® and other dermal fillers, Melt Away Weight Loss, CoolSculpting®, Ultherapy®, thread lift, skin care products, collagen bomb, and PRP facial. Those who want to become more familiar with the medical spa can follow their Facebook page.

SkinPen microneedling may be used to address a broad range of skin concerns, such as wrinkles and fine lines, large pores, pigmentation issues, as well as acne scars. This can be used to treat more than the skin on the face but also most other areas of the body, including the chest, neck, abdomen, legs, back, hands, and arms. This treatment is also one of the most effective non-invasive methods for eliminating acne scars and stretch marks.

The medical spa is also capable of offering the innovative DermaSweep micro-resurfacing treatment, which is a non-invasive method that makes use of proprietary bristle tips to gently remove the top layer of dead skin cells to resolve issues with wrinkles and fine lines, oily skin, dry skin, pigmentation problems, and other similar problems. It can also be used to stimulate blood circulation and refresh the skin, making it smoother and softer.

Meanwhile, they also offer a number of advanced chemical peels that can improve the skin with minimal downtime and discomfort. These are non-invasive treatments are designed to remove the top layer of damaged skin to bring out the unblemished and healthier skin below. This provides a more youthful and glowing skin. Chemical peels can be used to resolve various kinds of skin damage, such as sunspots, fine lines and wrinkles, acne scars, dull skin, age spots, rough patches, and uneven pigmentation.

Laser hair removal is also provided at the medical spa to effectively minimize hair growth for smoother and hair free skin. This treatment has also the advantage of effectively decreasing future hair regrowth, saving the client the time and discomfort from shaving, waxing, or tweezing.

IPL (intense pulsed light) photorejuvenation is also provided at the medical spa to address uneven skin and sun damage. Over time, the skin can start to show the effects of aging. This particular treatment can undo the effects of sun damage and bring back the youthful appearance of the skin.

Those who would like to know more about the skin rejuvenation treatments provided at Back to 30 may want to visit their website, call them on the phone, or contact the through email. For those who want to know their location and other important information about the medical spa, they can check out their GMB listing. They are open from 9:00 am to 5:00 pm on Mondays and Fridays, from 9:00 am to 7:00 pm on Tuesdays, and from 9:00 am to 6:00 pm, on Wednesdays and Thursdays.
