TeVelde and Co. is Now an Official Pella Certified Contractor

August 26, 2020

August 26, 2020 -
TeVelde and Co., a leading Omaha, NE window services provider, recently earned their ?Pella Certified Contractor? status. This means they are now more qualified than ever to help homeowners find the right Pella window products for their needs and professionally install their home windows. TeVelde supplies and installs Pella fiberglass and vinyl clad windows that come in a wide variety of types, styles, and sizes.

The company owner, Todd TeVelde says, ?It has been our goal here at TeVelde and Co. since day one to do everything we can to be the best window replacement company in the Omaha area. That?s why we handpick the finest window professionals in the area to lead our crews, and supply them with state-of-the-art tools and equipment to get their window work completed the right way for long-lasting function and visual appeal. Whatever it takes to be the best, we are willing to do it. This is why we took the necessary steps to become a Pella Certified Contractor. It?s a move that makes us that much better at what we do ? and make our customers happy. They have peace of mind in a beautiful, durable product that?s installed correctly to protect their warranty.?

What does TeVelde?s Pella Certified Contractor status mean for homeowners? The TeVelde sales team

completed in-depth learning on all of the different types of windows and other products that Pella offers. They are well informed about all Pella products ? their energy-saving ratings, material construction, sizing, looks, and low maintenance. Their installation crews also had to undergo intense training to learn best practices for installing Pella windows and any of their products. This means that any Pella window installation project is completely backed by Pella?s excellent warranties.

The company owner mentioned they also offer other outstanding window options. This includes the EnerLux fiberglass window products. He says by offering Pella and Enerlux window products, everyone that comes to TeVelde and Co. can find the right windows to meet their home?s needs and budget. TeVelde added that replacing older windows is never a bad idea. Most homeowners will recoup the investment over time in what they save on their energy bills. Both Pella and Enerlux windows have fantastic energy efficient features.

As a leading installer of Pella Windows, TeVelde and Co. is also highly regarded by homeowners who have used their professional window services. Martha Myles stated, ?Working with TeVelde and Co. has been a welcome treat. Everyone I consulted with or talked to was super friendly and knowledgeable. They were always very professional, but at the same time treated you like a friend or family member so I always felt very comfortable. The crew that came to my house always cleaned up after the day and did excellent work, attending to details and kept me involved. It was wonderful to work with a contractor who provided such personal attention!? Lindsay Thurston stated, ?We highly recommend TeVelde and Co. We have had a professional team working with us on our home. They were on time despite the weather, available for questions, and did exactly what they said they were going to do. We had a great experience!? Homeowners have posted 50 reviews about TeVelde and Co., rating them with 4.9 out of 5 stars on Google.
