Furnace Repair Toronto Partners with Martino HVAC to Serve Homeowners in Mississauga, Ontario

August 18, 2020

August 18, 2020 -
Furnace Repair Toronto has announced that they are now serving the HVAC repair needs of homeowners in Mississauga, Ontario, Canada. Furnace Repair Toronto caters to homeowners in the Greater Toronto Area and has been doing so since it started doing business in 2015. Martino HVAC has been providing its services in the Greater Toronto Area and the Quinte Regions for 30 years. With their partnership, both companies can now serve the HVAC repair needs of homeowners in Mississauga.

Michael Coy, owner of Furnace Repair Toronto, says, ?Since we opened our doors in 2015, our most important mission is to provide top-notch furnace services and a seamless customer experience. We take pride in offering reliable and efficient services. Our skilled and experienced technicians are always up-to-date with the latest news in the industry, in order for you to rely on us for all of your furnace repair needs.?

He continues, ?Our partnership with Martino HVAC allows us to better serve homeowners in Mississauga and neighbouring areas. As always, customer service is our first and foremost priority. Furnace Repair Toronto is here to offer you the best customer service you?re ever going to find. We rely on the most advanced technology to keep our promises each and every time. Our attention to detail, our affordable prices, and our clean work are the main reasons why so many customers in Toronto have chosen to trust us to address their furnace problems. We never compromise on the quality of our work, regardless of the difficulties and challenges we have to overcome.?

The City of Mississauga, Ontario, is located on the shores of Lake Ontario in the Regional Municipality of Peel, which is one of the service areas of Martino HVAC. Furnace Repair Toronto is a provider of 24-hour emergency furnace repair services. They want homeowners and other property owners to familiarize themselves with the warning signs of a problematic furnace and then call them to have their furnace checked by an expert and determine the repairs that are required to ensure that the furnace is working properly again.

They strongly suggest that homeowners and property owners make use of their maintenance and repair services before considering the replacement of their furnace. The average lifespan of a furnace is more than

20 years. However, it will require consistent attention and maintenance to maximize its lifespan. When in doubt on whether to have a furnace repaired, it is a good idea to call an expert from Furnace Repair Toronto.

A licensed professional from the company would be capable of addressing any issues regarding the furnace and to offer a recommendation on furnace replacement or any maintenance problems. Michael Coy explains, ?It might cost some money, but when you hire us you will definitely get what you pay for, and that is definitely less than what it would cost if you end up complicating things by attempting to do the repairs on your own without the proper training in furnace repair. You also can take full advantage of downtime since that is a good time to consult with a furnace contractor in Toronto, Ontario to have regular maintenance done to ensure that your furnace is in top condition for the upcoming winter season.?

There are a number of reasons why Furnace Repair Toronto stands out among the different HVAC repair service providers in Toronto and Mississauga. These include the fact that they: are family-owned and operated; employ quality service professionals; offer fair prices and clear pricing information; offer warranty protection; are committed to serving the community; and guarantee the satisfaction of their customers.

That they can be trusted is proven by the highly positive reviews they have received from customers. For instance, Fred J. gave them five stars and said, ?My furnace repair was conducted with the utmost care and precision. I never had to wait unnecessarily or deal with any potential excuses the company had. The furnace repair was streamlined and professional throughout the entire process. The customer service was attentive and well mannered. This is a company I'd advise you to do business with.?

Those who are interested in furnace repair and other HVAC services in Mississauga and surrounding areas may want to check out the Furnace Repair Toronto website at Furnace-Repair-Toronto.ca, or contact them through the telephone or via email. They are open 24 hours a day, from Monday to Sunday.
