

Auto Glass Shop Phoenix Offers Mobile Windshield Replacement

August 27, 2020

August 27, 2020 - PRESSADVANTAGE -

AZ based Auto Glass Shop Phoenix is pleased to offer Mobile Windshield Replacement in a much more convenient process for their customers. The company is keen to encourage car owners in the area to call in and inquire further about the new mobile replacement services.

Car dealerships most often do not include full windshield replacement in their service packages. The dealership may offer repairs, such as mending chips and cracks, but in situations where the windshield has suffered considerable damage, irreparable cracks or shattered, the clients must resort to seeking replacement services elsewhere. Local dealers who offer to install an Original Equipment Manufacturer (OEM) windshield may be subcontracting the job to professionals in windshield replacement. This results in the customer paying a dual fee, the premium fee of the local dealership and the fee for the actual replacement of the windshield.

Auto Glass Shop Phoenix's team consists of such professionals who possess the expertise to carry out windshield replacement. The company and its skilled team are ready and able to bypass the dealerships and work directly for the customer, provided that the latter takes the initiative and contacts them first when they need to replace their windshield. Since there is no need to coordinate services via a dealership, customers often feel that the transaction and replacement process is carried out more efficiently. The company is also capable of visiting customers in the Ahwatukee, Desert Foothills and Phoenix region thanks to their mobile windshield repair and replacement gear. Learn more here: [Auto Glass Replacement Near Me](#).

Gwendolyn McDowell leaves the company a 5-Star rating and states in their Google review, "I was on the freeway heading to work, and a rock hit the windshield and started a long crack. I called the glass shop near my work, and they came out within a few hours and replaced it while I was at work. Great job."

A dealership would need to coordinate services with their windshield subcontractor, which would often result

in a client having to leave the vehicle at their premises for at least a few days. Taking one's car directly to a reputable specialist such as Auto Glass Shop Phoenix can reduce this time to a mere 24 hours, a fact which will be extremely pleasing to car owners. In certain cases, a client may be able to drive their care away after just one hour, but this will depend on the type of adhesive used to hold the windshield in place.

The company always encourages their clients to discuss their schedules to learn more and choose the most suitable timings and locations. A replacement can be done in a short period of time, and the company has seen many cases where the process took less than 30 minutes. In these cases, however, they strongly advise against the car being driven for a certain time frame, depending on the time needed for the type of windshield adhesive to cure properly.

Certain types of damage, such as chips and cracks, may not require a windshield replacement. It is often more efficient for the client to request simple auto glass repair, though they should seek the advice of a professional on the matter before settling for a specific service. Minor damages are caused by a variety of reasons, including rocks and road debris being thrown up by other vehicles driving by. No matter the cause, the company advises drivers against the false ideal that the windshield will be fine without professional repairs. Minor damages such as chips and cracks can be fixed for extremely reasonable fees, however, therefore giving car owners little reason to delay getting the damages repaired. The company can visit a client at any location and carry out the repairs on site, an added convenience. To find out more, visit Auto Glass Replacement Today.

Paul Kealoha says in their 5-Star Google review, "I had to replace my windshield for a lease return. They came out on short notice and saved me the headache of fighting with the leasing return company. Thanks, awesome service. Will use them again on my new Mercedes."

To find out more about services offered, customers may visit the company's website. One may also call or email Auto Glass Shop Phoenix for further inquiries.
