

Professional Plumbing & Design Celebrates 30 Years of Excellence

August 31, 2015

August 31, 2015 - PRESSADVANTAGE -

SARASOTA, Fla. - Professional Plumbing & Design, Inc., one of the busiest and most respected plumbing contractors in Sarasota, announced today that this week marks its 30th anniversary in business. In honor of the anniversary and as a thank you to customers who have been loyal for three decades, the company is offering a limited time \$30 off coupon for any service. The coupon is available at their website www.ProPlumbingDesign.com and on social media channels.

"We're very proud and excited to reach this milestone as a family business and part of the Sarasota community," said Matt Wittman, Vice President. "As the second generation, it's been thrilling to take the reins and carry on with the vision for excellence that my parents and uncle brought to life in 1985."

Professional Plumbing was founded by Ted Wittman and operated by Ted, his wife, Marjorie, and brother, Andy. The company started out doing general plumbing repairs, drain cleaning, kitchen and bathroom remodeling, and new construction. They have since added a variety of specialized services like water filtration, re-piping, jet cleaning, video inspection, and pipe lining to their repertoire. Ted retired in 2013 and turned the operation of the business to his sons, Matt and Ben, and their uncle, Andy Wittman, who has been

there since the very beginning.

The success of the company has been driven by its commitment to customer experience and quality. They offer customers a 100% Satisfaction Guarantee. All employees are thoroughly background checked to ensure the safety of their clients. Technicians are methodically trained and do not receive a commission, so their advice is based solely on what is best for the client.

Professional Plumbing & Design provides residential, commercial, and industrial service to customers from I-275 to Venice, serving Sarasota, Bradenton and Palmetto. For more information about Professional Plumbing & Design click [here](#).
