

# **New Website Launched for Kitchen and Bathroom Remodeling Company in Santa Rosa CA**

*August 20, 2020*

August 20, 2020 - PRESSADVANTAGE -

A kitchen and bathroom remodeling service firm in Santa Rosa, CA, has revealed that they have recently launched their new website that discloses information regarding their kitchen and bathroom remodeling services for homeowners in Santa Rosa and neighboring areas. They are available to assist homeowners because converting the kitchen or bathroom into something they have always dreamed of can be overwhelming, due to the wide range of options to choose from and the various factors to consider such as design, budget, and deadline. They can provide a number of kitchen remodeling services, including: kitchen design, kitchen lighting, storage development, cabinet refacing, kitchen flooring, backsplash and countertops, and full kitchen remodeling.

A spokesperson for the remodeling service firm says, "We've spent years delivering the best service possible to our customers, and we promise to stick to that high level of quality when working with you. The satisfaction of each and every one of our customers is our greatest goal. If you're not happy with the outcome, then neither are we, and that's why we won't stop until you're happy."

He adds, "While we focus on the nitty-gritty of remodeling your space, the new look we create is based on your dream and your vision. We'll work to remodel each room according to the specifications you want and with a flexibility that will ensure the room you imagined is brought to life. We've carefully selected the best materials to match with our best-in-class service. That means that we can offer you a final result that looks great and lasts for many years. We guarantee that you'll be happy with the work that we do."

Aside from kitchen remodeling, the professionals at Santa Rosa Kitchen & Bathroom Remodeling can help with a bathroom remodeling project with regards to its different aspects, including bathroom design, bathroom flooring, custom bathroom vanities, and shower installation or repair. Their team of professionals are all experienced and knowledgeable with regards to bathroom design, particularly in attaining a good balance between function and form. They can also offer a customized bathroom design based on the homeowner's preferences. They have built a reputation of being one of the top bathroom design companies in the area.

Some of the key features of the bathroom that need to be considered in a bathroom remodeling project are the bathroom flooring, vanity and basin, bathroom mirrors, bathroom layout, fixtures and fittings, bathtub, and lighting. Their team of professionals can assist with coming up with customized showers and bathtub and shower replacement. The bathtub and/or shower may be constructed based on the requirements of the homeowner. They can also offer walk-in showers and showers especially designed for ease of access to the disabled and the elderly. These will have a special emphasis on safety and accessibility. This kind of shower will usually require maintaining low-thresholds, adding grab bars, the addition or moving of plumbing features, the installation of convenient shower seats, faucet controls, the widening of doors and entry-ways, soap niches, and handrails.

One of the salient features of the bathroom is the bathroom sink. Bathroom sinks are often desired to be both functional and attractive. However, it is essential to avoid any errors that could severely hamper its function. For instance, if the drain is too shallow, the water not be flowing from the bowl to the sink and then to the pipes. This will result into the presence of pools of standing water. When combined with an accumulation of hairballs or soap scum, the overall result could make the sink virtually useless.

Meanwhile, for kitchen remodeling, they can provide the necessary assistance in the replacement or repair of countertops, backsplashes, cabinets, and floorings. They want to point out that a kitchen remodeling project does not necessarily required removing everything. Depending on the budget and what is desired by the homeowner, some parts of the current kitchen setup may be retained and focus will be made only on certain areas.

Homeowners and other property owners in Santa Rosa, CA, who are in need of kitchen or bathroom remodeling may want to visit the website of Santa Rosa Kitchen & Bathroom Remodeling at <https://santarosakitchenandbath.com/>, or contact them through the phone. They are open from 8am to 8pm every day of the week, from Monday to Sunday.
