

VeveraDental.com Adds Informative Dentistry Blog to Website

September 03, 2015

September 03, 2015 - PRESSADVANTAGE -

COCOA BEACH, Fla. ? Vevera Family Dental, the dental practice of Keith Vevera, DMD and a Cocoa Beach dentist for many years, announced today that it has added a new, informative blog to its website, www.veveradental.com. Written by Dr. Vevera, the blog offers readers unique insights into advanced dental care and professional guidance on best practices for maintaining a high level of dental health.

?Dentistry has become increasingly advanced,? said Dr. Vevera. ?With the blog, our goal is to help our patients, as well as the general public, understand what options they have and what kind of treatments might be best ? including the option not to have treatment at all, which is sometimes the best approach.?

The blog, found at www.veveradental.com/blog, contains articles that describe how a dentist applies treatments such as Lumineers®, fillings and bonding. It gives in-depth information on bridges, implants, extractions, root canals, partial and full dentures and sleep apnea appliances.

Dr. Vevera was raised in Winter Park, Florida. After earning an AA Degree from the University of Florida and BS from the University of Central Florida, he attended the University of Florida for his DMD Degree.

Constantly pursuing continuing dental education in order to ensure that his patients are receiving the highest quality care, Dr. Vevera has become an Invisalign Preferred Provider, Somnosed Obstructive Sleep Apnea and Snoring Appliance Provider, Advanced Cosmetic Dental Smile Design and Endodontics LVI.

Dr. Vevera puts all of this specialized knowledge and professional expertise to work in crafting his blog.

A practicing dentist for over 20 years, Dr. Vevera is a member of the Academy of Laser Dentistry, American Academy of Cosmetic Dentistry, American Academy of Dental Sleep Medicine, American Academy of Implant Dentistry, Invisalign Study Club, American Dental Association and Florida Dental Association.
