Newly Released Bike Phone Mount from GadgetSource USA Achieves Record Sales

August 25, 2020

August 25, 2020 -
GadgetSource USA, based in Lynden, WA, is excited to announce that their newly released bike phone mount has become a hot summer product and is getting record sales. This product is shipped from the USA and is a universal bike mount with its very elastic silicone bands being capable of firmly holding all smart phones with screen sizes from 4.0 inches to 6.3 inches. It is manufactured from premium silicone and unlike the usual plastic bike phone mounts that are easy to break, it absorbs all shocks and prevents scratches to the phone surface. Its design allows the 360 degrees rotation of the phone, allowing the user to freely adjust it to any angle for optimum viewing of the phone and using various apps for monitoring mileage or time, and for viewing maps while riding.

Dan LHeureux, a representative for GadgetSource USA, says, "We?re both excited and happy to announce the very successful release of our new generation bike phone mount. Truly, it has become a summer hit because of its many advantages. Among these is the fact that it has a versatile design due to its adjustable band. This means that it can fit any size or style of bicycle, scooter, or motorcycle handlebar, and even shopping carts and strollers. And it can be installed in seconds because of its innovative silicone belt, which allows it to be attached or detached just like the way one would put on or remove a wristwatch.?

This innovative bicycle phone holder from GadgetSource USA is a silicone pull type 4 to 6.3-inch mobile phone holder with shockproof bracket. It has been designed to be flexible enough not to scratch or damage the phone. It has also been ensured to be safe and environmentally friendly as it can pass the California 65 environmental monitoring.

Users can tie their smart phone firmly to the bike without worrying that it will slip or fall, while also not causing damage to the phone, unlike phone holders made of plastic. Because the material is soft silicone, it won?t scratch the phone. In addition, it can fit various sizes of handlebars between 0.66-inch to 1.68-inches in diameter. Thus, it can be used also for motorcycles, scooters, baby carriages, and even shopping carts.

Meanwhile, GadgetSource USA also offers several other popular gadgets. These include a VR headset that is compatible with Android phones and iPhones, noise cancelling headphones, rechargeable dog bark terminator for dog training, M4 sports smart watch with fitness tracker, waterproof portable outdoor speakers, noncontact digital infrared forehead thermometer, gaming headphones, ultrasonic pest repellent, USB portable blender, Samsung Galaxy S20 ultra case, smartwatch with full touch screen and heart rate and blood pressure monitor, and portable air conditioner.

They also offer a number of helpful items. These include a set of resistance bands for training, gym, yoga, and as fitness equipment; anti cellulite massaging and slimming cream; a back brace that functions as posture corrector; a round garden grow bag for use as a raised garden bed; a sports fitness set for leg and arm exercises, boxing muay thai, and strength training; an art marker dual tip set; a froggy potty for boys; high waist body shapewear; solar bird bath fountain; magnetic shoulder / back support belt for men and women; body shaper corset; waterproof cat mat for easy litter cleanup; arthritis compression gloves; and dog pee pad.

More products from GadgetSource USA include the professional protective sports knee pad; incense burner tea pot; muscle massage roller for yoga or Pilates; pet food dispenser; music box with classic rotating dancer ballerina piano; electric pulse neck massager; pet cat / dog house; LeonLion 2020 vintage heart women?s sunglasses; essential oil diffuser; mini fishing reels; strawberry planting grow bag; mini USB camcorder; handheld vegetable spiralizer slicer; canvas wall art; and collage eye mask or green seaweed eye mask.
