August 27, 2020 - PRESSADVANTAGE -

Homegrown business Moseler Perkins Group emphasizes its offer of instant cash for any homes for sale in Savannah, Georgia.

The flourishing business of partners Joshua Moseler and Matthew Perkins is getting much attention from home sellers for their tempting offer. Selling a home in Georgia is easy as 1-2-3, the company says.

Moseler Perkins Group offers a fast and easy application process. The first step is by calling the real estate agency's number. Moseler Perkins group then researches the client's home details and crafts a great offer for their clients.

After that, the company presents a fair cash offer with no obligation and no fees. Moseler Perkins Group pays cash for houses without the hassle or stress of using commissioned agents or out-of-town property flippers.

"We understand that there are numerous reasons why someone may need or want to sell their home for cash quickly. Regardless of the situation, we can work toward a solution," they add.

The owners of Moseler Perkins also assure that they will purchase real estate in any condition and have the team and resources in place to improve the most distressed houses. They buy single-family homes, multi-family homes, apartment buildings, condos, and commercial properties.

?Our mission is to assist those who have found themselves in a difficult situation with a property that they no longer want or need.?

Meanwhile, aside from Savannah, the company is also expanding in Dallas, Texas. The company chose Dallas as its new location for the city's attractive economy and growing population. The modern metropolis is now home to over 1.34 million people. Likewise, more international corporations are also moving their headquarters in Texas City.

MPG Homes says that clients won't need to sign a contract that binds them to an agent for a specific term. Clients also don't need to spend money on cleaning or fixups too. Likewise, the professionals of the home selling business also assure full transparency and integrity with every transaction.
