Clean Group Introduces New Generation of Sydney Office Cleaning Services

September 01, 2020

SYDNEY, NSW - September 01, 2020 -
Clean Group, based in Sydney, NSW, Australia, has announced that they are introducing a new generation of office cleaning services in Sydney and neighbouring areas. This type of office cleaning is provided by a team of well trained, friendly, well experienced, reliable, and trustworthy cleaning professionals, who will ensure a cleaner and healthier office environment. This type of office cleaning has become even more imperative with the continued spread of COVID-19, which highlights the importance of a clean and healthy environment. The Clean Group professionals are knowledgeable and experience on how to properly disinfect surfaces and minimize the risks of infection.

Suji Siv, owner and CEO of the Clean Group, says, ?Aside from regular office cleaning, a seasonal deep cleaning is recommended for commercial spaces. Maintaining a clean office space is crucial if you want to protect the health of your employees and avoid unnecessary leaves and ensure high productivity. Furthermore, a thoroughly clean office can project a professional image of your business. That is why hiring trustworthy professionals for office cleaning services for a more thorough clean every once in a while, is a great way to ensure maximum cleanliness levels and provide your employees a motivation and productivity boost.?

In contrast to a regular office clean, an office deep clean will include cleaning tasks that are more difficult and need more time to perform. These include: detailed mopping and scrubbing of all floors; cleaning light switches, fixtures, and door handles; vacuuming all carpets thoroughly (moving furniture if necessary); emptying and cleaning inside cabinets; cleaning inside appliances (microwave, fridge, etc.); vacuuming drapes, blinds, windowsills, etc.; sanitizing computer keyboards & screens; dusting vents, baseboards, ledges, etc.; comprehensive bathroom and toilet cleaning; and sanitizing all surfaces with effective green cleaning agents.

The exact details on what will be included in the office cleaning service will be discussed with the client on the

initial quote visit by a Clean Group sales manager. These will be added to the site?s cleaning specifications. These will include daily, weekly, fortnightly, quarterly and yearly tasks that will ensure the overall sanitation and cleanliness of the office spaces. Some of the basic specifications are the collection of trash, wiping the desks and horizontal surfaces, and cleaning of toilets and kitchen.

Businesses will have nothing to worry about because all of the commercial cleaners from Clean Group are all well-experienced and professionals who have been comprehensively vetted. They have all be ensured to have at least two years of experience in office cleaning. In addition, Clean Group has workers? compensation insurance and public liability insurance.

As mentioned, Clean Group will not be providing a one-size-fits-all cleaning service. This is because different companies will have notable differences on how they operate even if they are in the same industry. No company will have the same schedule, requirements, and budget. For instance, Clean Group will provide comprehensive and bespoke alternatives that allow their clients to choose the cleaning solution that they want to be used for their office spaces. Clients would also be able to specify any unique requirements, their budget, and the different aspects that they would like the cleaning company to place an emphasis on.

Clean Group makes sure of a number of things when they provide office cleaning services in Sydney and surrounding areas. These include appropriate segregation of trash; the use of deep cleaning solutions for carpets, hardwood, rugs, laminate, and other floor materials; complete dusting services from top to bottom in every room and every space in the office building; external and internal window and glass cleaning; exterior pressure washing and cleaning; professional steam cleaning for rugs, carpets, upholstery, and office partitions; machine floor scrubbing; cleaning of the microwave and refrigerator; stripping and sealing of floors; and general organising and tidying up service.

Businesses in need of professional office cleaning services such as those provided by the Clean Group may want to visit their website at https://sites.google.com/site/commercialcleaningsydneynsw/cleaning/-office-cleaning-sydney, or contact them through the phone or via email.
