DON'T GET SCREWED ON YOUR NEXT CAR

New Concept In Automobile Buying Launched

September 08, 2015

September 08, 2015 - PRESSADVANTAGE -

OneGr8Deal, Inc, based in Newport Beach, CA, has announced the launch of a new concept to help consumers purchase their next car at a much lower cost than dealer advertised. They are not a broker nor are they affiliated with any dealerships. Rather, they are consumer advocates providing each member personalized service, information, and guidance. This will be handled during the negotiating, purchasing, and finance process, thereby ensuring customers get the best possible deal. OneGr8Deal, Inc. utilizes the same software as most major dealerships and therefore has access to manufacturer's discounts and rebates that most dealerships don't advertise or disclose to the general public.

"We have developed a number of options that customers can sign up for to save thousands on their next car purchase," says Fuzzy Nasiri from OneGr8Deal. "Membership lasts for 14 days, during which time we help our customers finalize their car purchase at a much lower price than dealerships has offered them." Our team has held most positions within the automotive industry aside from being owners and knows exactly how the dealerships make their money. We guarantee you that we will beat them at their own game."

There are three available options: the Non-Luxury vehicle option, the Luxury vehicle option, and the VIP option (Dealership to Doorstep service). Customers can choose the option that suits their particular needs. What sets OneGr8Deal, Inc apart from the basic broker service is that OneGr8Deal, Inc offers live support at

any stage of the buying process. "Any Question, Anytime" is their motto. They are available to answer all car buying questions, day or night.

It is a known fact that people are often overwhelmed when they purchase a new vehicle. Car salesmen have a reputation of being pushy to the point that they are almost conning people into purchasing a vehicle by using industry terminology that is filled with jargon and more. Recent research has revealed that around 90% of people have, at one point or another, driven off with a vehicle that they had no intention of buying in the first place or that didn't suit their needs.

Similarly, once the customer makes the deal, it starts all over again. The dealership finance departments then offer additional finance products and options (which is another minefield of hard to understand jargon) and before a buyer knows it, their monthly payment increases. The same piece of research showed that people often have little or no knowledge of what they are actually paying for and that less than 20% of buyers actually compared the market to see if better finance deals are available because of dealership pressure. OneGr8Deal, Inc. was created to assist customers and to lift the pressure so they will get "OneGr8Deal". Customers feel like they have their own personal automotive industry insider available to help them analyze and review the dealerships offers and advise them on how to save more money before they sign a contract.

"We act as a personal consultant to each of our clients," adds Marcel Kimura of OneGr8Deal, Inc. "We know cars, we know car dealers, and we know car finance." Register now to access your own personal consultant to assure you get the right car at the right price for you." Register or call now to get your OneGr8Deal!
