

Local Los Angeles Exterminators Still Operating During Covid

August 27, 2020

August 27, 2020 - PRESSADVANTAGE -

Termite Control Specialists of Los Angeles is a company that offers pest control services to all of Los Angeles county. The first time the company opened its doors it was ready to handle any infestation that might be taking over a home or commercial property.

In a recent interview the business owner said, "Pests are becoming a bigger and bigger problem in this area. They are becoming more adept to their surroundings and are continuously becoming harder to treat. Over the counter products just aren't working as good as they used to. Termite Control Specialists of Los Angeles is happy to provide custom services to local residents. Our services are custom built towards each pest to make sure we perform the best way to get the best results. We don't believe in one size fits all."

The company has a team of 10 exterminators that can help with any kind of infestation. Due to the increase in pests, a significant increase in infestations has been a large issue with many local property owners. Homes and commercial buildings are being overrun, no matter how clean they are.

More residents are staying home due to covid and thus, they are starting to notice all the bugs that have been hiding out in their homes, or maybe just starting to invade their property. Regardless, pest control services have been needed more than usual and the manager said they are ready to help Los Angeles residents get control of their bug or rodent issue.

"Our team of exterminators all go through a week long training course that goes over how to treat every pest," the manager said. The company plans to constantly upgrade their equipment to the newest and best products. This should ensure the best service and bring the best results. The company has been in business long enough to handle the many calls they receive on a daily basis. "Our exterminators are staying extremely busy during this pandemic and we are very grateful to our local communities that continue to support us," the business owner stated.

The company is open weekdays, 8 am to 5 pm and on Saturday from 9 am to 5 pm. They are closed on Sundays. The professional exterminators can be reached by phone and on their website: <https://termitecontrol-losangeles.org>.
