

Devereaux Designs Releases Liscaro Riviera Wrap Fashion Scarves On Amazon And Liscaro Website

September 08, 2015

September 08, 2015 - PRESSADVANTAGE -

Devereaux Designs in Clearwater, Florida, has announced that their revolutionary Liscaro Women's Fashion Scarves and Riviera Wraps, once available exclusively on QVC and in high end U.S. Women's Boutiques, have become available also through Amazon and Liscaro.com as of September 1, 2015 at 8 am EST.

Designer Lisa Devereaux explains that her unique scarf design affords every woman effortless style with versatility. She says, "All you do is thread it through. The only stress free scarf that you never have to know how to tie." Meanwhile, Anne Dudley of Tulsa, OK, noted, "It's truly the best scarf you've never tied. I never wanted to learn how to tie a scarf, and with the 'Liscaro' I don't need to. The Liscaro's vibrant patterns, versatility and simplicity are its beauty." More information about these fashion scarves can be seen at <https://amzshark.com/r/liscaro>.

Designer Lisa Devereaux explains that her unique Riviera Wrap design affords every woman elegance and ease in one ridiculously versatile accessory. "Whether you need to throw something around your arms, create a stylish sarong or when in need of covering your posterior with a perfect pareo, the Riviera Wrap will suit your needs in a flash. All you do is thread it through!" More information about the Riviera Wraps can be seen

"Why didn't I think of that?" is a refrain that Lisa Devereaux hears on a daily basis. Lisa wants American women to appreciate the fabulousness of a scarf as much as their European counterparts who typically own 17 scarves as compared to the 2.5 (Winter) Scarves that American women own.

Therese Stewart of Wellington, FL, says, "It can quickly transform a classic solid blouse and trouser into a chic 'style' that is your presentation to the world, and we women like to change it up. An animal print on my feistier days or a beautiful floral when I'm feeling particularly girly and a bold graphic when I want to make a professional statement. Take advantage of the fact that you can invest in some key 'solid' pieces in your wardrobe and accessorize with a scarf to completely change the look. How you wear it and what print you choose is limitless."
