Clean Group Introduces Gym Cleaning Services along with COVID-19 Disinfection & Sanitizing

September 04, 2020

SYDNEY, NSW - September 04, 2020 -
Clean Group, a Sydney-based commercial cleaning agency is pleased to introduce professional gym cleaning services in association with a team of 50+ expert & trained cleaners. The company already provides an extensive range of commercial cleaning services, including office cleaning, strata cleaning, childcare, school cleaning, among others. And now, they are all set to start serving the cleaning & sanitizing needs of all types of gyms and health clubs in Sydney and the surrounding suburbs.

On the occasion, the Clean Group CEO and owner Suji Siv says his company is trusted by hundreds of commercial property owners for their routine and one-off cleaning needs. As one of the oldest and well-known commercial cleaning companies, they offer cleaning services to a variety of businesses in and around Sydney.

?We are known to deliver the highest standard in commercial cleaning across Sydney and surrounding suburbs. Our cleaning solutions are safe & eco-friendly and our services are designed to meet the cleaning requirements of all kinds of commercial businesses. With our gym cleaning services, we aim to help health clubs and centres maintain clean & germ-free facilities for their customers. We now also provide COVID-19 disinfection and sanitizing services. Call today for a free on-site quote,? says Suji Siv.

With over 20 years of experience in commercial cleaning, Clean Group stands as a trustworthy partner for anyone looking for reliable cleaning services in the Sydney area. This, accompanied by the fact that they have a team of more than 50 trained and experienced cleaners, is more than sufficient to understand their commitment towards cleaning. Over the years, they have worked with a good number of fitness centres, gyms and health clubs, cleaning their premises and keeping the things tidied up and, therefore, have an obvious edge in this kind of service. As of now, Clean Group caters to the routine cleaning needs of businesses in over 100 suburbs in NSW, Victoria, and Queensland. They can even arrange specialized cleaning for hospitals and schools or same-day cleaning for urgent requirements. Having experience cleaning

all kinds of small stores and large factories makes Clean Group truly stand out from the competition.

While every other cleaning company in the market seems to be following a standard suite, providing the same services with no customization, Clean Group has managed to develop their own set of new cleaning methods and solutions. Rather than following the same cleaning process or using the same resources for all cleaning projects, the company likes to offer personalised cleaning service after thoroughly analysing the specific requirements of a property. This enables them to provide desired cleaning results to customers. Furthermore, the Clean Group gym cleaners are trained to provide services with the highest standards of cleanliness.

According to the Clean Group CEO, the cleaning of a Gym or Health Club is different from the cleaning of any other property. At a gym, people tend to sweat a lot during workouts, which is why germs can be expected on machines, equipment and carpets/mats. To properly clean such a facility, the cleaners from Clean Group use specialized techniques and cleaning solutions. They wipe every machine and equipment, doorknobs, handles, desks, etc. and disinfect everything in order to get rid of germs, bacteria and viruses. For the cleaning of carpets, they use pressure washing, dry cleaning and similar methods.

Clean Group cleaners use the latest cleaning equipment, including the I-mop, a unique cleaner designed by combining a mop with a powerful scrubber machine. This enables the team to reach and clean the areas that are usually hard to clean, such as ceilings and vents. For cleaning solutions, they use Viraclean, among other options. And for the disinfection of surfaces and equipment, Clean Group?s Electrostatic sprayer application technology with Zoono-71 Surface Sanitiser, which can kill up to 99.99% of germs, is used. Moreover, they use colour-coded, antibacterial microfiber cloths for dusting and wiping purposes.

Since all the commercial cleaners of the company are fully insured, have a minimum of two years of experience and have been verified by police, they are completely safe to work with, which is another reason why Clean Group is preferred by businesses for their routine cleaning needs.

Gyms being a highly sensitive and health-focused place need proper and thorough cleaning on a routine basis. Clean Group?s expert and results-driven gym cleaning services are handled by their team of trained gym cleaners. Their cleaners are friendly and trained to take the various safety precautions when cleaning a sensitive place like a gym. In addition to basic cleaning, they also offer disinfection and sanitising services to get rid of viruses & bacteria in a facility, which can be very crucial in the current times.

Businesses looking for a reliable & affordable commercial cleaning partner in Sydney can visit the Clean Group website at https://sites.google.com/site/commercialcleaningsydneynsw/cleaning/commercial-cleaning-services, or contact them through the phone or email.
