

Clean Group Introduces Professional Office Cleaning Services in Sydney At Competitive Prices

September 04, 2020

SYDNEY, NSW - September 04, 2020 - PRESSADVANTAGE -

Australia's one of the most reputed professional Cleaning service providers Clean Group is delighted to announce that many reputed and known Australian business houses are teaming up with them to create a safe and productive friendly environment at their offices and other commercial places.

The company Clean Group is actively providing professional, reliable and inexpensive commercial and office cleaning services for businesses located in and around Sydney. Their portfolio is not just limited to offices and commercial cleaning services; they are also famous for providing long-lasting strata cleaning, carpet cleaning, school cleaning, health care centre cleaning, childcare cleaning, gym cleaning, etc services at really affordable costs.

CEO and owner of the Clean Group, Suji Siv said, "You can only make a first impression, so you need to make sure that your customers will see professional and well-organised work premises and environment the first time they visit your office. We are known for providing the top-notch standard in office and commercial cleaning services fully-customised to meet your business requirements. That is the reason why many globally recognised Australia based businesses have been finding their way to teaming with us to ensure that their office environment is not just safe and hygienic but also optimized for high productivity."

There are numerous reasons to choose Clean Group for keeping an office clean and hygienic but some unmatched facts are: they are in the professional cleaning business for more than 20 years, they have 50 well-trained and hardworking cleaners, they have really responsive customer support staff, they are actively providing quality services in more than hundred suburbs in NSW, Queensland, and Victoria. Along with all these, they also have comprehensive experience in providing cleaning services at health care centres and fitness centres.

Clean Group also has incomparable knowledge and practical experience in maintaining the cleaning standard

at retail stores, shopping malls, storefronts, and even at huge industrial warehouses.

The Clean Group not only cleans the area but also takes hygienic measures to ensure that the premises remain virus and germ-free, especially in hospitals and medical centres where these measures are necessary. They can also conduct cleaning programs for educational centres such as schools, universities and daycare centres.

This company is able to comply with the strict cleaning requirements of large factories and manufacturer plants and can also provide pressure cleaning and external maintenance as per unique requirements.

The company makes use of some of the modern-day cleaning equipment, one of them is I-mop. It is a powerful cleaning machine that is really effective in washing and cleaning. This machine is a combination of the flexibility of a mop and power of an industrial-grade scrubber machine that can remove even the toughest dirt from the surface. It also makes cleaning at the hardest corners possible really hassle-free.

Along with equipment they also promote the use of eco-friendly solutions as much as possible. These solutions are completely government approved and safe for humans, pets and non-targeted species. These effective and environmentally friendly commercial cleaning solutions can eliminate a wide range of germs, viruses and bacterias.

These solutions can kill a range of viruses including the hepatitis B virus, various flu viruses, herpes simplex virus, and more even coronaviruses from the surfaces. With these powerful cleaning products, their staff clean and hygiene various parts of the office such as the door handles, lightboards, satire railings, window sills, furniture, and more. They use antibacterial microfibre cloths to clean and remove allergens from these surfaces. Various reports found this process effective in eliminating as much as 99% of bacteria from the surfaces.

The Clean Group also clearly mentioned on their website that they don't stick with a one-size-fits-all cleaning service. They inspect the complete area from time to time and then create the plan/ strategy as per their observation. Thus every time they come up with better ideas and more effective processes.

During the process of providing commercial cleaning services in Sydney, Clean Group take care of a number of factors, their cleaning service includes complete dusting services from top to bottom in every block, cabin, etc, means in each and every space inside of a commercial building, proper management of trash; Cleaning of carpets, hardwood, rugs, laminate, carpets, upholstery, office partitions, and other floor materials using the deep cleaning solutions along with professional steam cleaning; window and glass cleaning from inside and outside; exterior pressure washing and cleaning; cleaning of the refrigerator, microwave and other kitchen equipment, and general organising.

Businesses who are looking for office cleaning service providers in and around Sydney to make their office environment refreshing, safe and high productivity can go through the official website of Clean Group. Also many Australian businesses are partnering with Clean Group for a high productivity & safe working environment.
