

Bed Bug Removal Specialists Hires New Employee

September 04, 2020

September 04, 2020 - PRESSADVANTAGE -

Bed Bug Removal Specialists has been providing pest control services to Hamilton County for around twelve years now. The company has helped thousands of families and entrepreneurs with their custom treatments, routine checkups, and emergency responses over the years. They have built a lot of trust in the community and are known to be the most reliable pest control company in the area. Their services are strategically designed to make sure each customer gets the most effective results.

The company recently announced that they are hiring a new employee onto their team. On Friday it was announced that Aaron Shannon will be joining the team of pest exterminators. The president of Bed Bug Removal Specialists welcomed him to the team during a company picnic over the weekend, "Thank you all for coming out to this amazing company picnic today. The weather could not be better. I just want to say thank you to all of you for all of the hard work that you have given over the years and I have an announcement to make. Please help me welcome Aaron Shannon. Aaron is our newest team member. Aaron has over twenty years of pest control experience and is a very talented person. He loves helping people and knows how to fix almost every piece of pest control equipment we have. I know he is going to fit right in so let's make him feel at home."

Bed Bug Removal Specialists has noticed a large increase in the number of pest infestations in Fishers, Indiana recently. A representative of the company talked about this increase in a recent interview, "We have noticed that there has been a huge increase in the number of pest control infestations in the area. We believe this is because pests are growing immune to DIY pest control methods and over the counter products like pest sprays and pest traps. The pests are able to spread like crazy because most people are not using effective treatments. Professional treatments are becoming the only effective treatment available."

If residents or business owners have a pest infestation in their residential or commercial property, they should

give Bed Bug Removal Specialists a call today. They can be contacted by phone or on their website at <https://bedbugremovalspecialists.business.site/>. They are open from 8 a.m. to 6 p.m. on weekdays and from 8 a.m. to 5 p.m. on Saturdays. They are closed on Sundays. An employee of the company said, "Pests spread very quickly. If you think you have a pest problem, unfortunately, you probably do. Call us today and we would be glad to help you."
