

Best Pest Control of Fishers Strikes New Merger Contractor

September 09, 2020

September 09, 2020 - PRESSADVANTAGE -

Best Pest Control of Fishers has been providing Fishers, Indiana with the most reliable pest control solutions in the area for over eight years. The company has a team of ten professionally trained exterminators who all know how to treat every species of pest in the area. Each exterminator can handle any pest infestation in Hamilton County in the most reliable and timely way possible. The company has received a lot of high reviews for their services and their staff is known to be very helpful and friendly.

The company has been growing fast over the years but recently has had a problem with trying to keep up with all of the new pest infestation calls. They have recently noticed a large increase in the number of calls they've been receiving regarding pests in residential and commercial properties. The company thought this was a little strange so they did some research and realized why this is happening.

An employee of the company explained what they realized, "There have been more pest infestations this year than there has ever been before. The reason for this is because everyday pest infestation treatments like DIY methods and over the counter products aren't as reliable as they used to be. These treatments are not only outdated but the pests they are meant to treat are adapting and growing immune to the chemicals used. Because of this, pests are able to spread and multiply without any troubles. Professional treatments are becoming the only reliable method to treat an infestation."

Due to all of these new calls, Best Pest Control of Fishers has decided to strike a merger deal with another local pest control company. The merger states that Best Pest Control of Fishers will receive new pest control equipment, utility vans, and employees from the unnamed company.

The president of the company went on to talk about the merger, "The new equipment will allow us to more reliably perform pest control treatments to local residents. The new utility vans will allow us to reach the target properties in record time and more reliably. Finally, and most importantly, the new employees will allow us to

help more families and business owners than ever before.?

The company has a lot of great reviews online for their services and are known as the most reliable and affordable pest control business in the area. If anyone thinks they have a pest problem they should try and contact Best Pest Control of Fishers as soon as possible. They can be reached by phone or on their website at <http://pestcontroloffishersindiana.com/>. Their hours are 8 a.m. to 5 p.m. on weekdays and from 8 a.m. to 2 p.m. on Saturdays. They remain closed on Sundays.

A representative of the company said, "Pests multiply and spread very quickly. They can take over an entire property overnight so if people think they have a problem they should call a professional immediately."
