

## **JB Home Supplies Provides High Quality Disinfectants**

*September 15, 2020*

September 15, 2020 - PRESSADVANTAGE -

JB Home Supplies, based out of Garfield, New Jersey, is reaching out to the wider community to announce that they are selling high quality disinfectant products. The company is aiming to provide their customers with one-stop access to any and all home supplies they might need, delivered at affordable prices.

J. Ehlich, a representative for JB Home Supplies, states, "I think it goes without saying that keeping your homes and workplaces clean, sanitized and disinfected has never been more important than it is these days. With the widespread nature of the COVID-19 outbreak, it's critical that you do all that you can to ensure that the places that you occupy are safe. While normal cleaning procedures will certainly help, they can only do so much. They cannot do anything to viruses and bacteria on the microscopic level. That's why, whenever you are cleaning your home or workplace, you need to use disinfectants to make sure that you are cleaning everything thoroughly."

At JB Home Supplies, customers can find a wide range of disinfecting products. The company provides disinfecting wipes, aerosol sprays, hand gels, rubbing alcohol, hydrogen peroxide and so on. The full list of disinfectants sold by JB Home Supplies can be found on the company's website.

Ehlich says, "JB Home Supplies exists because of the COVID-19 outbreak. The coronavirus hit us all very

hard, and the truth of the matter is that we initially did not know how to proceed. We did not have proper protection or a plan of action. We created this company so that we could help people shop for products that they need for their day to day lives without worrying about getting infected or sick. Now, everyone can use JB Home Supplies to browse for and purchase whatever they want from the safety and comfort of their homes.?

They continue, ?Given that we have started to fight against this pandemic, it shouldn't be a surprise that we are doing all that we can to reduce its spread. The variety of disinfectants that we sell at JB Home Supplies have all been thoroughly tested for effectiveness and efficiency. These are some of the best products available on the market right now if you want to disinfect your house, workplace or just take care of yourself.?

The company?s key goal is to search and test all basic household items and find the best brands of products to sell to their customers. JB Home Supplies assures that if they are selling a product, a customer has no need to worry about its quality. The company believes that every person has the right to be protected against all viruses, bacteria and other germs, which is why all health-products provided by the company are top of the line ? and FDA approved.

In addition to having a very customer-friendly and accessible website, JB Home Supplies also has a mobile phone app that customers can use. The mobile phone app has all the functionalities of the main website and more. Customers can easily browse, choose and then purchase items with a few clicks via the convenient JB Home Supplies app. Going one step further, users of the app can also track their orders from the moment they are shipped all the way until they arrive at their doorstep.

Ehlich says, ?At JB Home Supplies, we are doing everything that we can to provide the people of this country with peace of mind in a very tumultuous time. COVID-19 doesn't seem to be slowing down, and as unfortunate as it might be, life must still go on. At least with JB Home Supplies? help, maybe it can go on a little more safely. We're hoping that we can take out the fear of shopping for important household items and instead provide a way to still get those items without undue risk to one?s health.?

Those who want to learn more about JB Home Supplies and their services are welcome to visit the company's website to get started. They encourage interested parties to get in touch with J. Ehrlich directly via email or phone. The company can also be reached through the contact form on their website.
