

## **Diamond Rock Spring Water Announces Water Delivery Schedule for Various Areas in New Jersey**

*September 15, 2020*

September 15, 2020 - PRESSADVANTAGE -

Diamond Rock Spring Water, a family owned and operated natural spring water business based in Ridgefield Park, NJ, has announced their schedule of deliveries for various areas in New Jersey. These areas include Allendale, Alpine, Bayonne, Bergenfield, Bernardsville, Booton, Boundbrook, Bridgewater, Carlstadt, Cedra Knolls, Clark, Clifton, Colonia, Creskill, Denville, Dumont, East Orange, Edgewater, Elizabeth, Emerson, Englewood Cliffs, Fairfield, Fairview, Florham Park, Fort Lee, Garfield, Glen Ridge, Green Brook, Hackensack, Harrington Park, Hasbrouck Heights, Hawthorne, Hillsdale, Ho Ho Kus, Irvington, Jersey City, Kenilworth, and Lincoln Park.

Diamond Rock Spring Water is also open for walk ins and delivery. However, they want customers to know that they have adopted new hours of operation until further notice because of the COVID-19 pandemic. The new hours will be from 8:00 am to 3:00 pm, from Monday to Friday, and from 9:00 am to 1:00 pm on Saturdays. They also would like to remind customers to order the exact number of empties that currently have. This is because they cannot add additional bottles at the present time because they would run out of bottles. Customers can call the office to confirm the availability of all spring water products.

They offer water delivery service to a wide range of customers, such as municipalities, vendors, athletic clubs, businesses, hospitals, schools, residential homes, and more. The ordering system has been made simple. First, customers will call them when they need a delivery. A service representative will be receiving the customer calls and will jot down the delivery order, and then remind the customer of the delivery day. Customers would want to take note of the delivery schedule that they have posted on their website for different areas in New Jersey.

They would also like to remind customers that the Diamond Rock Spring Water bottles and water coolers have to be cleaned or sanitized periodically. It is possible for the bottled water to last for long periods of time while maintaining the quality and taste of the water. However, customers are reminded to rotate the bottles by utilizing the oldest bottles first. Furthermore, it is very important to make sure that the bottles are not stored in a place where they can get exposed to direct sunlight. Direct sunlight can promote the growth of algae over time, thus affecting the quality of the bottled water.

They also would like to remind customers that if their cooler leaks, it is 99 percent likely that it is caused by a defective bottle. The bottle may have a pin hole or tiny fracture. This often occurs in older bottles that have undergone several cycles of cleaning and sanitizing. They suggest a procedure for testing a water bottle to find out if there is a leak.

Diamond Rock Spring Water is also a direct distributor of all Keurig K-Cups and Brewers. They offer at least 140 brands of K-Cups, including a range of coffee and tea. These include the Eight O'Clock Colombian Peaks Coffee, Eight O'Clock Original Decaf Coffee, Café Escapes Milk Chocolate Hot Cocoa, Eight O'Clock Dark Italian Roast Coffee, Eight O'Clock The Original Coffee, Eight O'Clock Hazelnut Coffee, Barista Prima Coffeehouse Decaf Italian Roast Coffee, Barista Prima Coffeehouse French Roast Coffee, Barista Prima Coffeehouse Colombia Coffee, Emeril's Big Easy Bold Coffee, Bigelow English Breakfast Tea, and Barista Prima Coffeehouse Italian Roast Coffee.

Meanwhile, Diamond Rock Spring Water is a family owned and operated company that believes in giving back to the community through children's charities. They are ready to donate water to all local teams and to fund raisers hosted by their customers. They currently sponsor a local soccer team and a town softball team.

The company has been doing business since 1994, and Mario Picinich, the owner of the company, and his son Richard Picinich, share the philosophy of giving each customer competitive pricing, high quality products, and personal service.

People in New Jersey who are interested in knowing more about the natural spring water delivery may want to visit the Diamond Rock Spring Water website, or contact them through the phone, or via email. They may also want to follow their Facebook page.
