

Orange County Auto Accident Lawyer: Seek Medical Treatment & Documentation After Accidents

September 16, 2020

Orange, California - September 16, 2020 - PRESSADVANTAGE -

Napolin Accident Injury Lawyer Orange County, a personal injury law firm based in California, is taking steps to explain the legal importance of getting medical treatment after automobile accidents. With several offices around California, Napolin Accident Injury Lawyer is dedicated to helping their clients achieve success with their personal injury cases.

Alexander D. Napolin, founder of Napolin Accident Injury Lawyer Orange County, says, "If you've been in an automobile accident, it goes without saying that you need to get treatment for any and all injuries right away. Not only will this ensure that you are safe and sound, it will also preserve the value of your case. People who are hurt seek treatment right away, and people who aren't hurt, do not. What this means is that getting treatment also serves as a way for you to differentiate yourself from those who are not injured."

The law firm explains that medical documentation is very important in court, especially if the victim is suffering whiplash, spinal injuries, herniated discs, back pain or extremity numbness. While these types of injuries do

manifest in visible ways, such as broken bones, cuts, bruises, hematoma, fractures, burns and more, it is still important to have subjective complaints documented by a medical professional and get follow up treatment and diagnostic testing. This includes MRIs, X-rays, CT Scans, EMGs etc.

Similarly, any type of concussion or traumatic brain injury (TBI) can be hard to measure. Therefore, even if a victim of an automobile accident is experiencing symptoms, they might not fully notice it. Napolin Accident Injury Lawyer advises victims of accidents to remain vigilant for any cognitive lag or deficit and ensure that they are reported and documented. If possible, they may wish to have their friends or family help track their condition as well.

Napolin says, "If you fail to get treatment and document your injuries, especially ones that are not necessarily visible on the surface, it can lead to the insurance adjuster " and ultimately a jury " rejecting your allegations. Insurance adjusters love to deny injury claims based upon a "delay" in treatment. It happens all the time! You do not want to let them do that. A lot of unsuspecting victims do not realize that their lack of diligence in seeking medical care lands them solidly in the "not injured" category and lined up perfectly for a low-ball settlement offer. This is not helpful when you are seeking damages against someone who has hurt you grievously."

The excellent services provided by Napolin Accident Injury Lawyer have led them to be considered the best Orange County auto accident lawyer by many in their community. On the Google platform, the firm has a rating of 4.6 out of 5 Stars. In a recent 5-Star review, Pippa Lee writes that they, "Had Napolin help me with a car accident that I had last year. This office represented me and my family, and we couldn't be happier with the result and the communication throughout the process. We are so blessed to have found this team and highly recommend them to friends and family. Thank you for all of your help with our case! I recommend them to you for a car accident or other personal injury or work injury."

Meanwhile, in another review, Philip Weihn shares, "I must start by saying that I appreciate all of the help and advice that Alex provided to me. Throughout my case, I felt secure, and things were taken care of. I had a previous accident where I waited years to receive a small sum. Not the case this time around. I am completely better, and with things done expediently, I could not be more satisfied. I never wanted to be in circumstances to hire a personal injury lawyer but I can say I made the right decision. Keep up the good work!?"
