

Subaru White Plains Announces Availability of Subaru Ascent Inventory for Sale

September 16, 2020

September 16, 2020 - PRESSADVANTAGE -

Subaru White Plains, a car dealership based in Elmsford, NY, is happy to announce the availability of Subaru Ascent inventory for sale after the shortage caused by the pandemic. There was indeed a shortage because the all-new 2021 Subaru Ascent SUV is such a popular model. With new inventory available at Subaru White Plains, those who have been eager to get this particular SUV may now do so from this auto dealership. The new 2021 Subaru Ascent is also available for a 36-month lease deal, which is effective up to October 2, 2020, for \$299 per month with \$3,889 due at signing.

Mike Poznanski, sales manager at Subaru White Plains, says, "Delivering on the promise that Subaru Ascent is built to last, 97% of Subaru vehicles sold in the last 10 years are still on the road today. Designed for optimal balance and an even distribution of power for maximum traction, its standard Symmetrical All-Wheel Drive makes for exceptional stability, impressive efficiency, and a quick response to driving conditions. You can't go wrong with such quality craftsmanship. And that's because the New Subaru Ascent is generous on its storage, low on servicing needs and ensures a fantastic drive on every landscape."

The 2021 Subaru Ascent is a family-sized SUV equipped with flexible seating for up to eight passengers and has a standard Symmetrical All-Wheel Drive, and up to 5,000 pounds of towing capability. And for the family's peace of mind, it comes with the Subaru EyeSight® Driver Assist Technology as a standard feature.

The 2021 Subaru Ascent is built in the US to provide long-lasting quality. Its standard Symmetrical All-Wheel Drive is meant to provide excellent stability and efficiency, plus a fast response to driving conditions because it was designed for even distribution of power for optimizing traction and balance. Its standard direct-injection turbocharged SUBARU BOXER® engine combines the efficiency of direct injection and the power of turbocharging to provide 260 horsepower.

When comparing the Subaru Ascent vs Honda Pilot, the Ascent appears to be better because the all-wheel drive comes as a standard for less money. The Ascent is also better in terms of fuel economy at 21 mpg compared to the Honda Pilot 20 mpg for city driving.

Distinctive features of the Subaru Ascent include the navigation system, lane departure warning, leather upholstery, automatic temperature control, emergency communication system, power moonroof, wireless phone connectivity, and rear exterior parking camera.

Convenience features of the Subaru Ascent include the 1-touch down, 1-touch up, navigation system, overhead console, EyeSight adaptive cruise control, passenger door bin, passenger vanity mirror, air conditioning, power moonroof, power windows, auto-dimming rear view mirror, automatic temperature control, power windows, doors and push button star, driver door bin, driver vanity mirror, rear air conditioning, rear beverage holders, STARLINK Safety and Security emergency communication system, rear door bins, remote engine start, front beverage holders, front dual zone A/C, remote keyless entry, speed control, HomeLink garage door transmitter, telescoping steering wheel, heated steering wheel, illuminated entry, memory seat, tilt steering wheel, and trunk/hatch auto-latch.

The entertainment features include: two first row LCD monitors, SiriusXM AM/FM radio, CD player, CD-MP3 decoder, 8.0" primary LCD size, radio data system, satellite radio trial duration with new vehicle purchase, STARLINK/Apple CarPlay/Android Auto smart device integration, Harman/Kardon speakers, 14 speakers, steering wheel mounted audio controls, and wireless phone connectivity.

The 2021 Subaru Ascent also has a number of lighting, visibility, and instrumentation features. These include the: auto high-beam headlights, blind spot warning, compass, delay-off headlights, digital/analog display, exterior parking camera at the rear, front fog lights, front reading lights, fully automatic headlights, EyeSight Lane Keep Assist active for lane departure warning, low tire pressure warning, outside temperature display, rear reading lights, rear window defroster, rear window wiper, sun blinds, tachometer, trip computer, and variably intermittent wipers.

Those who are interested in a Subaru Ascent lease or sale may want to check out the Subaru White Plains website, or contact them on the phone or through email.
