

Eastern Shore Dumpster Rentals in Daphne AL is Now Open for Business

September 14, 2020

September 14, 2020 - PRESSADVANTAGE -

Eastern Shore Dumpster Rentals is proud to announce the grand opening of their Daphne, Alabama facility. Out of this new location, they will be providing several different sizes of roll-off dumpsters to both residential and commercial customers in Daphne and the surrounding Eastern Shore areas. They offer same-day service a large majority of the time and they also offer convenient online booking. Their new office location is at 9671 Milton Jones Rd in Daphne. More on the unique features that this new dumpster rental provider brings to the Eastern Shore of Alabama area can be seen on their website at <https://www.easternshoredumpsterrentals.com/>.

The company spokesperson, Chris Thompson, says, "The Eastern Shore Area of Alabama is a part of the state that we could not be prouder to provide our quality dumpster rental services too. We are a progressive company that also takes great pride in having dumpster rental services that are convenient and easy to put into motion. All a customer has to do is call us, text us, or order the dumpster size that they need online and then send us a quick message when it's full and needs to be picked back up. We really do make the process that simple. We also make sure that we treat our customers the right way when working for them. Our company does these things because we realize that every home and business owner on the Eastern Shore

will need dumpster service at some point and when they do, we want to be the company that they turn to for help.?

Thompson says that they also fully realize that dumpster rental is not a one-size-fits-all service by any means. He says that's because residential and commercial customers have different amounts of trash and other materials that need to be hauled away and nobody wants to pay for an oversized dumpster that they will only fill 1/3rd of the way. It's for this reason that they have three different size dumpsters available for rent. This includes 10-yard dumpsters which are 14'x 8'x4', 15-yard dumpsters which are 14'x 8'x5', and their largest size 20-yard dumpster which measures 14'x 8'x6'. The company spokesperson said that even if someone orders a dumpster that does not fit all of their trash, it's no problem to get them another properly sized one right away to finish a job.

According to the company spokesperson, they will also be providing rental dumpsters for a variety of different reasons. This may be a homeowner that wants to clean out a garage or basement storage area, a roofing contractor doing a big project that includes a roof tear-off, or a custom home builder that needs a lot cleaned before a final walk-through inspection. They also provide dumpsters that can be used to haul away yard waste, scrap metal, and other forms of demolition debris. He also mentioned that a list of the items that cannot be disposed of in their dumpsters is available on their above-mentioned website.

Thompson added that they are also pleased that they are the first in the Eastern Shore area to have online booking using "Dumpster Rental Systems". He says that they will continue to do whatever is necessary to be the most thorough and convenient dumpster rental service in their part of Alabama.

Thompson stated that their service area includes Daphne, Fairhope, Spanish Fort, Foley, Mobile, Robertsdale, Loxley, Silverhill, Bay Minette, Stapleton, Gulf Shore, Orange Beach, and many areas in between. He added that those who need dumpsters further out than these locations are still encouraged to call them and enquire about their dumpster rental services. Often for a small extra fee, they will still accommodate outlying customers with the type and size of dumpster that will meet their needs. The company spokesperson says that they are open Monday thru Friday from 9:00 am - 5:00 pm and they can be reached by phone, email, or by filling out the "contact us" page of their website. He says additional information on their services can also be found on their Facebook page at <https://www.facebook.com/EasternShoreDumpsterRentals/>.
