

5 Star Dumpster Rental Company Shares Insight With Community

September 14, 2020

September 14, 2020 - PRESSADVANTAGE -

Murfreesboro, Tennessee based 5 Star Dumpster Rental is reaching out to their community to answer some of the most frequently asked questions regarding their dumpster rental services. Further information on the company is available here: <https://www.5stardumpster.com/>.

David Sells, a representative of 5 Star Dumpster Rental, states, "We wanted to take this opportunity to shed light on some of the most common inquiries that we get from the community. We hope that this will help them see the benefit of our work, which can give them the breathing room they need to execute their projects. All they have to do is hire us to take care of their junk removal needs."

The first of the common inquiries addressed by the local company concerns items that are not allowed in their dumpsters. While most materials and objects are fair, 5 Star Dumpster Rental states that, due to safety reasons, they do not allow the disposal of certain objects in their dumpsters. These safety precautions include avoiding items such as batteries, harmful chemicals, flammable liquids (including paint and oil) and asbestos. Any other hazardous item that can compromise their employee's safety is also forbidden.

Sells states, "These cases can be delicate, and while it can be inconvenient for our clients, our foremost duty is to guarantee the safety of everyone involved. We ask for your patience and understanding of the situation as this is something that is out of our control. Please remove all hazardous waste and similar items before using your dumpster.

5 Star Dumpster Rental also addresses whether or not there needs to be a person on-site for the delivery and pickup of the dumpster. They state that this is not necessary as long as the receipt has been signed digitally after the service has been booked, though they recommend that their clients double-check their receipt to ensure that a precise location for the drop has been designated.

They note, however, that it is important to make sure that enough room is available for the dumpster to be dropped and picked up. Sells states, "While our dumpsters fit even in the smallest driveways, it is always a given that you should check and measure the available space. Even if it's a tight fit, we always try to work something out with our clients, going above and beyond to ensure that we deliver and recover our dumpsters safely."

Finally, 5 Star Dumpster Rentals addresses the matter of how much it costs to rent one of their dumpsters. They state that while this is one of the most common inquiries that they receive, it is one that can not be answered easily ? it depends on the requirements of each client. The price varies based on the size of the can, the number of days the client wants to keep it and their location. Detailed information on the rental cost is available when booking through their website.

Staying true to their name, 5 Star Dumpster Rental is one of the best-rated junk removal and dumpster rental companies in the area. They possess a distinguished reputation among their clients, who continue to rely on them to fulfill all of their junk removal needs. Through their website, the local company highlights several reviews that attest to both their expertise and the excellence of their services. One recent comment written by Sally M. states, "I ordered a dumpster from 5 Star Dumpster Rentals. They were on time and very professional. I highly recommend them." A similar comment describes the experience of Abraham W., who shares, "This was my first time renting a dumpster. I could not have asked for a better company to rent from." George P. also says, "I will use them for all my dumpster needs. Service is unbeatable. They exceeded my expectations."

The company's website offers more details on 5 Star Dumpster Rental and their services. Interested parties may reach out to David Sells to follow up on any inquiries as well.
