

Clean Group Starts Offering Complete Office Cleaning Services in Brisbane

September 11, 2020

SYDNEY, NSW - September 11, 2020 - PRESSADVANTAGE -

Clean Group, a Sydney-based commercial cleaning agency, has now started offering their comprehensive range of office cleaning services to businesses in Brisbane. With their routine cleaning service, the company aims to help local businesses maintain safe & germ-free workplaces. Their cleaners are specifically trained in infection control cleaning practices. They use the Defence Shield technology to thoroughly clean and sanitise an office facility and kill up to 99.99% germs and viruses.

As a professional office cleaning agency with more than 20 years of experience, Clean Group provides a 100% satisfaction guarantee with all their cleaning work. They can make a cleaning team available with a one-day notice. "It's never a good idea to have any of your employees handling the office cleaning tasks that can be effortlessly outsourced. This is particularly true when their time could be spent on a higher return on investment activities. There's no faster way to kill morale in an office than to ask employees that never expected to do any office cleaning as part of their job to pick up a broom, mop, or a duster and get to work during normal business hours," says Suji Siv, owner and CEO of Clean Group. He stresses that office cleaning must always be done by professional & experienced cleaners to ensure safe, complete and desired cleaning results. With multiple options like phone, website and email, contacting and hiring an expert office cleaner with Clean Group is easier than ever.

Being one of the most experienced office cleaning agencies in Australia, Clean Group is trusted by hundreds of businesses across Sydney, Melbourne and Brisbane and surrounding suburbs for routine cleaning of their offices and business premises. In fact, the company has 700+ routine cleaning clients at present. There are many things that make Clean Group the number one choice of so many businesses for all their office cleaning needs. These include the company's huge expertise in the industry, a strong team of trained & certified cleaners, safe & eco-friendly cleaning practices, and satisfaction guarantee.

When an office owner or manager chooses to hire a professional cleaner, they most probably want to hand

over the complete cleaning responsibilities along with all the headache and hassle associated with the job. Given the proven track record of Clean Group, trusting them for reliable and quality cleaning is easy. They have the resources and the ability to take care of all kinds of professional cleaning needs of any type of organisation or business, including hospitals, offices, medical centre, childcare, warehouse, retail, malls, health clubs & gyms, schools, church, among others. However, they specialise when it comes to the cleaning & sanitising of office buildings, both large and small.

The office cleaning services of Clean Group include everything from the cleaning of floors to carpet cleaning, cleaning & disinfection of toilets, bins, lifts, staircase, doors, windows, etc., garbage removal, dusting & wiping of upholstery, furniture, computers, keyboards, kitchenware, phone receivers, etc., and car park cleaning.

All their office cleaning services are performed by the company's in-house and trained cleaners with complete care of the safety of people. They only use green and eco-friendly solutions along with highly effective equipment, including the iMop scrubber and microfibre cloths for in-depth cleaning. All their cleaners have to go through a mandatory background check and police-verification process before they can be hired by the company. This is to ensure the safety of clients from inexperienced or malicious cleaners.

To get the best results possible with each of their cleaning jobs and to cause the least burden on the clients, Clean Group's cleaners bring their own equipment and cleaning supplies that are non-toxic and biodegradable. They use the latest cleaning technologies and tools to achieve the best cleaning results. Almost all the supplies and products used by their cleaners are eco-friendly and safe for humans and pets. For quick and high-standard cleaning of office floors, they use machine scrubbers that are capable of removing dirt, dust and even stains from the surfaces. Also, they use high-quality microfibre cloths for wiping and cleaning surfaces like tabletops, sofa, kitchen counters, etc. These cloths are very effective in the cleaning of surfaces for dust, dirt and moisture.

Also, Clean Group now offers complete disinfection and sanitising services for offices in Brisbane. This includes routine disinfection cleaning of an office or manufacturing facility to get rid of common bacteria and viruses like COVID-19 in order to make the place safe for workers and customers. The service can be availed by all kinds of businesses, including retail stores, shopping malls, offices, warehouses, factories, hospitals, restaurants, gyms, schools, and childcare centres.

Businesses looking for a reliable and affordable office cleaning company in Brisbane can get in touch with the Clean Group sales team via their official website or phone helpline number 1300-073-089.
