

Pest Control of Columbus Notice of Merger

September 11, 2020

September 11, 2020 - PRESSADVANTAGE -

Pest Control of Columbus has been providing superior pest control solutions to Franklin County for over twenty years. The company has a ton of great reviews for their services and are very trusted in the community. They have a wide range of services and a large team of professional exterminators. Each treatment is custom built for the specific pest it is meant to treat. This allows the exterminators to guarantee the most effective and last lasting protection. Each exterminator has been frivouly trained on how to treat every pest in the area.

The company has grown a lot since they first opened so many years ago and are constantly looking to grow into the future. They recently announced that they will be merging with another smaller pest control company. The merger states that Pest Control of Columbus will receive new pest control equipment, new utility vans, and new employees from the unnamed company.

The president of the company said in a recent statement, "The new equipment will allow the team to perform the most reliable and fast treatments in the area. The new utility vans will allow us to get to the target property more reliably and quicker through bad weather. It will also help our team stay organized with all of their tools. Finally, the new employees will allow us to help more people than ever before."

The company also announced that they have noticed a larger than normal amount of pest infestation calls this year. They believe this is due to people using over the counter products like pest sprays and traps. A scientist on their team said in an interview, "We took some time to figure out why pest infestations are worse this year. The main reason we found is because pests have adapted and become immune to everyday treatments. These treatments include DIY methods and over the counter products like pest sprays and traps. Since these methods don't work well and most people go with these for some reason, the pests are able to multiply and spread out of control."

The company has a lot of great reviews and their services are trusted to be reliable and affordable. If people think they have a pest problem they should contact Pest Control of Columbus to give them a try today. They can be contacted by phone or on their website at <http://www.columbuspestcontrolinc.com/>. Their hours are 9 a.m. to 5 p.m. on weekdays and they are closed on weekends.
