

Aable Appliance Repair Moves to New Location in Louisville KY to Reach a Larger Clientele

September 23, 2020

September 23, 2020 - PRESSADVANTAGE -

Aable Appliance Repair has announced that they have recently moved to a new location in Louisville, Kentucky, in order to reach a larger clientele. They offer appliance repair for various kinds of home appliances, including washers, dryers, dishwashers, cooking ranges, wall ovens, cooktops, refrigerators, garbage disposal systems, and freezers. They are a locally owned and operated appliance repair company offering quick same-day service in most areas. The company has been providing household appliance repair services in Louisville and neighboring areas for more than 30 years.

Dave Bringer, owner of Aable Appliance Repair, says, "Our goal is to deliver top-notch repair and maintenance of your home appliance at the most competitive prices possible. We pride ourselves on the high level of customer service we provide."

Aable Appliance Repair has factory-trained technicians who can go to the customer's home equipped to repair the washing machine. They have the experience and training in the repair of popular brands. These include Whirlpool, Maytag, GE, Kenmore, Sears, Hotpoint, Frigidaire, Admiral, Amana, LG, Samsung, Bosch, Electrolux, Haier, Roper, Inglis, KitchenAid, and more. Common problems with washers that they have encountered include: washing machine making loud noise or strange sounds; water not filling or draining completely (or not at all); washer basket is slow or not spinning; overflowing water from washing machine; machine stops mid cycle; buttons / knobs are not working; wobbling washers; washer not agitating; and leaking water.

For household appliance repair Louisville, KY residents can also depend on the company's dryer repair services. The technicians from Aable Appliance Repair have more than 60 years of collective experience in repairing clothes dryers. Common problems with dryers that they have encountered include: dryer won't turn on at all; dryer turns on, but won't run; dryer will not heat up; overheating and shutting off dryer; drum doesn't turn; dryer unusually loud when running; dryer taking especially long to dry clothing; and more.

Aable Appliance Repair technicians are also capable of providing dishwasher repair services. Common dishwasher problems they have encountered include: dishwasher will not start; leaking water; water is not filling (or not draining); spray arms will not move, or function correctly; dishwasher keeps stopping due to a loose plug; water pressure is too low; motor will not turn on (or off); and more.

They can also provide repair services for cooking ranges. Their technicians have decades of experience when it comes to the repair of ovens, ranges, cooktops, and stoves. People will usually find that problems with these appliances are difficult to diagnose and repair. Especially if the homeowner is dealing with a gas line, it is advisable to call a professional at the first sign of trouble. Common problems include: stove does not work; heat is not adjusting; broiling is not effective or hot enough; thermostat is not accurate; does not turn on display shows an error message; smell of gas; will not heat up; burners won't ignite; broken knobs, faulty latches, cracked handles; downdraft motor does not work; door will not open after self-cleaning cycle; heating elements malfunctioning; and more.

Their technicians are also capable of repairing refrigerators. Common problems include: ice maker problems or not working; fridge not cooling or maintaining temperature; not cold enough, or too cold; door latch failure / broken door seal; problems dispensing water or ice; refrigerator runs constantly without stopping; refrigerator making strange or loud noises while running; water leaking inside or around the refrigerator; sweating and leaving perspiration on the outside; not turning on at all; and more.

They can also repair the garbage disposals system for the kitchen sink. Garbage disposals can suffer from a wide range of problems, such as food or objects getting lodged or disrupting the function of the unit. It may also backup, overheat, or simply stop functioning.

People who are looking for an appliance repair service provider may want to check out the Aable Appliance Repair website at <https://www.aableapplianceserviceky.com/>, or contact them through the phone or via email. They are open from 8:00 am to 6:00 pm, from Monday to Friday, and from 8:00 am to 4:00 pm on Saturdays.
