

Roof.net Receives 5-Star Customer Review For Excellent Service

September 22, 2020

Fairfax, Virginia - September 22, 2020 -
Fairfax, VA roofing contractor Roof.net is pleased to share a great review they received on Yelp from a happy customer. The customer, who is based in Anchorage, AK, praises the company?s ?great and flexible? roofing service. The review can be found here: https://www.yelp.com/biz/roof-net-fairfax-4?hrid=RuNWcbUkwxm3Zu4gRqf_Qg.

?Roof.net did both neighbors? roofs last summer and came highly recommended,? says the review. ?They were honest with us about the installation of an attic fan and overall very helpful. They worked around our other renovations and got us scheduled quickly once we were finally ready. We spoke with Ken, and he was helpful and knowledgeable. We also got pictures of the roof, the bad spots, the work in progress and the completed project, which was great because it's a roof and, honestly, I wasn't climbing up there to check. Great work! We're satisfied customers and will refer anyone who asks! Thanks!?

A roof replacement represents a huge financial investment for any homeowner. The roof is one of the most important parts of any home, offering protection from the elements, and making sure that it is installed, repaired or replaced by a professional is essential. Ideally, roof replacement is based on the date of the previous roof?s installation, but this may not always be the case as harsh conditions can, depending on the roofing material, drastically shorten the roof?s lifespan. Northern Virginia is known for its extreme weather ? with heavy snow, ice storms, torrential rains and high speed winds being considered a normal part of life. Conditions like this mean that, while the average roof may last 25 or more years, many homeowners in Northern Virginia find that their roofs last a much shorter time.

Roof repair can help with some of the damage done by harsh weather. A new roof is often less costly in cases where the old one is severely damaged, but repairs can help extend a roof?s life. Roof.net?s roofing professionals have the tools and knowledge necessary to help homeowners figure out if they need a new roof or if repairs will suffice. Their site, https://roof.net, allows customers to schedule inspections and contact the roofing company in the event they need assistance with any of a variety of roof-related issues.

?You can rely on Roof.net, the best 5-Star rated roofers in Northern Virginia, to give you the professional advice you need,? the company says. ?Hiring a roof replacement contractor is a decision that should not be taken lightly. After all, your roof is your home?s protection. If poorly installed, it can result in accidents and damages in the home. Moreover, roof replacement is a significant financial investment, so it?s best to get it right the first time. Working with the best-rated roofing company in Northern Virginia will make your investment worthwhile.?

Roof.net is one of the most well reviewed roofing contractors in Northern Virginia. With 45 years of roof replacement experience, the Roof.net team has developed and maintained the trust and loyalty of customers throughout their years in the business. They use only the best materials ? and have the most highly skilled and professional crews work on each project.

The recent 5-Star Yelp review is one of dozens of positive reviews from pleased customers. Another 5-Star review states, ?Ken and his crew were great to work with. Their pricing was straightforward and communication was awesome. From start to finish, they went above and beyond. They removed all shingles by hand to minimize damage to the sheathing and Ken sent videos along while the job was going on to explain what the crew was doing and why. They used top-of-the-line materials and still came in at half the price of some of the other companies we had gotten quotes from.?

Similarly glowing reviews can be read on the company?s Facebook page as well, which can be found here: https://www.facebook.com/roofrepairva. A client named Victor states, ?These guys are awesome. I contacted them about a problem I had on my roof. After dealing with three other firms that kept trying to sell me a whole

roof, [when mine was] only 5 years old, they went to the attic, saw the problem and gave me a price to only fix the problem. I trust these guys, and they will be my go-to roofers from now on.?
