Richard Sakowski, the company owner, says, ?We are proud of this recent 5-star review and all of our reviews on our Google My Business page. Those at our company are also thankful for every job that we earn and because of that we always go the extra mile for our customers. That?s why we have become a company that homeowners don?t hesitate to recommend to their friends or family members. Our customers never get anything but our best effort on the roofing work that we do and we routinely not only meet but exceed their expectations. continue to do what it takes to inspire our customers to leave glowing reviews of our roofing services.?

In an effort to better serve their customers, Sakowski added that they are now offering more financing options than ever before too. They are doing this because they fully realize the importance of people not putting off critical roof repairs. By offering their customers more roof financing Winston Salem options, most customers can now find a way to fit their roofing repairs easily into their budget and not take additional risks by putting off their roof repairs. The biggest addition of which is their partnership with Enhancify. He says partnering with them enables their customers to do all of the roof financing processes remotely and safely online. All a customer has to do is call them for a roof inspection that is quickly followed up with a detailed estimate. The owner says that after that they then will fill out the necessary online forms with Enhancify. Once approved, Grace Roofing and Construction LLC will then work with that customer to schedule a time to get the work done that is convenient for them. Sakowski said that financing can be obtained on both their higher cost roof repairs and complete reroofing projects. He added that whatever it takes to make their customers' roofing experience with them better, they are willing to do it.
