Glowing Reviews Becoming Part of the Norm at This Used Auto Dealers Edmonton Alberta Location

September 24, 2020

September 24, 2020 -

North Edmonton Kia may be one of the newer car dealerships in the Edmonton, Alberta area but that has not kept them from being showered with glowing reviews from their customers. This is a huge source of pride for those at the company according to the veteran auto dealer and owner Robert Aaltonen. Although the large majority of the positive reviews that have been left on them can be attributed to their Google Maps Listing, other sources such as business overwatch groups and press releases have also featured reviews that have heaped praise on this dealership?s services. This webpage seen here at https://mgyb.co/s/8Pdxe discusses more about how the company goes about doing their highly rated services.

Aaltonen says, ?I would like to take credit for the large number of positive reviews that we regularly receive but that would not be fair to my staff, sales team, and service center personnel that work so hard to satisfy our customers. We also realize that there is no better way to measure our performance than the reviews that are left on us and each 5-star review tells us that our dedication to the performance of our jobs and the excellent customer service that goes along with that is working like it's supposed too. Even on the rare occasion that we do not get a 5-star review, we take those reviews seriously and learn all we can from them so we can make positive changes in the areas that were mentioned in those reviews.?

Here are two recent examples of the types of glowing reviews that North Edmonton Kia routinely has left on their Google Maps Listing. Peter Fullbrandt wrote, ?Great service. Done early. Car was washed. Provided information on things that may need attention down the road and booked our next service appointment. Excellent and friendly service.? Slava Volotovsky says, ?Service was absolutely amazing! Reasonable price negotiation and flexibility in payment terms to be greatly appreciated. Brittany Fox has been very helpful indeed. Definitely will look for the next car here.? It is worth noting that one of these 5-star reviews applauded the efforts of their car service center and the other complimented their sales team. There have been over 500 reviews left on this dealership?s Google Maps Listing and the overwhelming majority of them have been very positive.

Another review that was left on this acclaimed Edmonton area Kia Car Dealership and Service Center was recently featured in a press release that can be seen here at https://www.pressadvantage.com/story/38158-north-edmonton-kia-one-of-the-car-dealerships-near-137-ave-in-edmonton-canada-gets-another-highly-pos. In the review that was the subject of this PR, Jennifer W., stated ?My experience here at North Edmonton Kia was fantastic. Andre's service was excellent and I highly recommend him when you're looking to purchase a vehicle. He saw to it that I was well taken care of and the service provided was to my specific needs and I got exactly what I wanted. Thank you so very much, Andre. Additionally, I wish to thank Justin and Harnam as well. Thank you all at North Edmonton Kia.?

Even on business watchdog sites like Yelp.com where companies normally get mostly unfavorable reviews, North Edmonton Kia has managed to have mostly positive reviews left on them there. An example of that is this 5 out of 5-star review from Beverly T. who exclaimed, ?I just had my first oil change with my new Kia Soul and I was blown away by the speed they performed the oil change, the low charge, and a free travel mug. And they washed my car for me! I had exceptional customer service!!! This review can be seen here at https://www.yelp.ca/biz/north-edmonton-kia-edmonton along with several others.

Aaltonen added that he and the rest of his sales and service employees have pledged to do whatever it takes to keep leaving their customers with very favorable impressions of the service that they have received from his dealership. North Edmonton Kia specializes in New and Certified used car sales and the maintenance of these vehicles. Their website even allows customers to shop for new and used cars from the safety of their homes. He mentioned that his dealership also tries to make obtaining financing as easy as possible and everyone who visits there will enjoy the family type atmosphere that they have tried to create.
