Pediatric Dentist In Louisville, KY Launches New Website

September 28, 2020

September 28, 2020 -
Louisville, Kentucky-based pediatric dentist William Kemper DMD is pleased to announce that they have launched a brand new website that is designed to highlight the services they provide as well as ensure a better onboarding experience for visitors. Kemper DMD has been serving children and families in Louisville and the surrounding areas since 1986.

William Kemper DMD is pleased to state that their new website will be a completely new experience that has been carefully designed from scratch. The two main purposes of the redesign were to ensure that all the information about the dentist and the services they provide can be easily accessed as well as deliver a better experience for visitors. The redesign has also eliminated any and all navigation and performance issues, unlike previous iterations. Further, the website has undergone a thorough optimization process to make sure that it runs on all devices and web browsers.

William Kemper DMD offers a wide range of pediatric dental treatments, including but not limited to, dental examinations, teeth cleanings and extractions to in-office sedation and restorative procedures. The dentist is quick to assert that all of the services provided are done with great care so that children undergoing any procedures experience little reason to be upset.

The dental clinic is proud to state that their first priority has always been to ensure that both their patients and their parents are comfortable, relaxed and have a stress-free dental experience. As William Kemper DMD boasts on their website, the dentist is ?parent tested and kid approved? ? something that they have achieved by engaging with both brave and timid children through positive reinforcement while keeping the dental procedures educational and fun. More information about WIlliam Kemper DMD can be found at the following link: Pediatric Dentist Louisville, KY.

Dr. William Kemper, founder of William Kemper DMD, says, ?I realized my desire to help young people find

their perfect smile at a very young age. I was injured in a baseball accident as a kid, breaking my jaw and several teeth. It took a team of dentists, orthodontists and oral surgeons to repair my smile, and I thought it would be pretty cool to help other kids the same way when I grew up.?

Dr. Kemper?s enthusiasm for the work he does and the excellent services provided by his team at William Kemper DMD have earned the clinic praise from parents all over Louisville. On the Google platform, William Kemper DMD has a perfect rating of 5 out of 5 Stars from over 300 reviews. In a recent review, Andrea Wyche writes, ?I have been taking my children to Dr. Kemper for over 24 years now. This is the first time I have left a review, but as always they provide superb service as well as being very gentle with the children. I have never, as long as I have been going there, ever seen or heard a child who was hesitant to go back by themselves. As a matter of fact my 21-year-old still goes there and refuses to go see anyone else. We love it, you should come join us.?

In another review, Lexie Lay shares, ?Dr. Kemper and his staff are seriously the best. Both of our kids needed a good amount of work done and have had awful experiences at other dentists.? The review continues, ?Dr. Kemper is amazing, our kids love him. He does great with kids and is so kind. This will be our lifelong dentist. I highly, highly, highly recommend them.?

Those who want to learn more about William Kemper DMD and the services they provide are welcome to visit the clinic's website at the following link: https://www.kemperdmd.com/. Patients can also find William Kemper DMD on Facebook where they frequently post updates and share relevant media. Interested parties are invited to get in touch with Dr. William Kemper via his email address or phone number. Alternatively, William Kemper DMD can also be contacted through the contact form on their new website.
