

New Tailgating Wine Charms Now Available From Simply Charmed

September 25, 2020

September 25, 2020 - PRESSADVANTAGE -

Simply Charmed is incredibly pleased to announce the release of their new Football Tailgating Party Magnetic Wine Glass Charms. The Simply Charmed Magnetic Wine Charms are made with rare earth magnets, and they add an element of fun to any drink, evoking the atmosphere and excitement of a football match. Even though large gatherings will definitely be a thing of the past for some time to come, it is now more important than ever before that, even among small social gatherings, a person does not inadvertently drink from someone else's glass. One of the beauties of these attractively made magnetic charms is that using them makes it almost impossible for that to happen.

The newly released set of Football Tailgating charms, perfect for the fall season, is a collection of six charms. The easily recognizable and iconic motifs are a football pennant, a football helmet, the football itself, a foaming mug of beer, a red and white striped carton of popcorn and a hotdog. Each charm represents a

familiar element of the football season, perfect for a Tailgating party.

To quote the company website, "These magnetic wine glass markers will identify everyone's drinks at your tailgate! From stemless wine glasses to Bloody Mary's and pints of beer, everyone will know whose glass is whose! Touchdown!" They emphasize how versatile these sets of magnetic charms are and how they are not limited to just one style of glass or drink. Learn more here: [Shop Magnetic Wine Charms on Etsy](#).

Simply Charmed also has Halloween, Thanksgiving and Christmas magnetic wine charms available. Megan Buller of Simply charmed says, "We aim to charm people all through the year, of course, but we hope that our wine charms will be instrumental in helping to make sure everyone's glass stays unique and safe." Interested customers can find Simply Charmed on Facebook where the company makes a point to respond promptly to all questions or comments. They can also peruse examples of the company's other charms, such as their fox charms and the many other different seasonal and themed motifs, that are on offer.

The Facebook Page boasts a following of over 3,000 people. Commenting on the company's social media presence, Buller adds that Simply Charmed felt people would enjoy the charms and other offerings, but the company has been pleasantly surprised by the attention and positive feedback their products have received. "We have had purchasers from all over the world," she says. To find out more about their range of products, visit the following link: [Simply Charmed Magnetic Wine Glass Charms](#).

Simply Charmed is a family-owned company based in Illinois. In addition to the magnetic charms, the company also developed two sets of silicone wine charms for stemmed glasses. One purchaser of Simply Charms states in a 5-Star Amazon review, "These are exactly what I was looking for. The magnet is thicker than I expected, but honestly, I had never purchased something like this before. I personally do not drink alcohol; therefore, my vino friends tried them out and loved them a lot. Said it was perfect to avoid a mix up at my parties. They are great quality and a cool conversation piece."

Buller states that their other holiday charms have been immensely popular as well. "These are a great gift for hostesses or really any holiday," she says, "and they are flying out the door." The charms are about six millimeters in diameter, which means that they are small enough so as to not be obnoxious or obtrusive, but they are just the right size to actually be seen. The magnets hold securely in place and do not feel cumbersome to the user.

Simply Charmed has been in business for more than a decade, and one of their goals is to bring a little extra happiness into people's lives. The company is always bringing out new items and new wine-themed available accessories, such as wine aerators and gift bags.

For inquiries one may visit their website and their various social media pages. One may also contact the company via email.
