

ZEN ME's Dry Brush Set Featured In October Issue Of Allure Magazine

September 25, 2020

September 25, 2020 - PRESSADVANTAGE -

ZEN ME, a body and skincare product manufacturer, is excited to announce that their ZEN ME Body Brush Set has been featured in the October issue of the Allure Magazine under Best of Beauty Products 2020. The team at ZEN ME has dedicated themselves to providing simple, sustainable and natural skincare products.

Emily Barns, a representative for ZEN ME, says, "At ZEN ME, we put a lot of love and attention into the products that we create. Every bit of our passion for body and skincare is poured into all of our products, and it's no different with the ZEN ME Body Brush Set. Seeing that passion recognized by an acclaimed magazine such as Allure and being granted the honor of being one of the Best of Beauty Products for 2020 is really exciting for all of us here at ZEN ME."

The ZEN ME Body Brush Set contains a dry body brush, a konjac facial sponge, an exfoliating glove and a pumice stone. Together, these items are meant to give customers a much better value for price than similar products on the market. This simple yet effective set will be all anyone who needs to easily exfoliate dead

skin, stimulate skin renewal and improve circulation. The ZEN ME Body Brush Set can be found on their Amazon Store.

The company's body brush was also seen on the Today Show (featuring Elle Macpherson's top beauty secrets for keeping her body youthful after 50). The brush, which is manufactured with industry standard beauty considerations in mind, does not use plastic to anchor its bristles. Instead, the natural bristle brush is crafted with beautiful polished lotus wood that securely holds the bristle.

The exfoliating gloves can be used to gently and effectively exfoliate layers of dead skin and impurities in the shower. ZEN ME asserts that those who use the body brush in conjunction with the exfoliating gloves will see improvements in their overall skin quality and texture. It has been designed with material that stretches to accommodate most hand sizes, ensuring that everyone can use the gloves.

The facial sponge included in the set is suited even for sensitive skin. Users of the sponge will find that the natural pH of their skin is restored. The konjac sponge can easily cleanse all kinds of skin of dirt, blackheads, whiteheads, oil and other blemishes. The sponge is made from 100% pure Konjac plant root with added natural bamboo charcoal, which contains activated carbon that helps to fight acne-causing bacteria. Rich in vitamins A, B1, B2, B6, B12, C, D, and E as well as antioxidants and minerals such as copper, zinc, iron and magnesium, the konjac plant will add to the benefits the sponge brings for users' skin.

The pumice foot stone can exfoliate coarse skin and callus. The company uses only quality pumice lava stone and as a result will last much longer without falling apart. With regular use, the pumice stone will ensure that users' feet will look just as smooth, soft and clean as they did the last time they left a pedicure salon.

Barns says, "At ZEN ME, our mission has always been to provide simple sustainable skincare solutions with products that exfoliate and rejuvenate your skin to enhance your natural beauty. Our dry brushes, sponges and scrubbers are made with natural materials and without any chemicals to help your body get the benefits nature intends. This standout quality is what we believe led to us being chosen for the Best of Beauty Products for 2020 category, and this very quality is why our products will serve you and your skin best."
