

# New Volvo XC90 Inventory Available At Danbury Volvo

*September 25, 2020*

September 25, 2020 - PRESSADVANTAGE -

Danbury, Connecticut-based Danbury Volvo is pleased to announce that they have received new Volvo XC90 inventory following a temporary setback caused by pandemic-induced supply chain issues. Danbury Volvo has been serving the community for over 20 years with outstanding customer service.

Chris Gavin of Danbury Volvo says, "The Volvo XC90 is a very popular model among residents of Danbury and the surrounding areas, but due to a series of supply chain issues caused by the onset of the COVID-19 pandemic, we had sadly run out of inventory. However, we are pleased to say that any and all of those issues have been fully resolved, and Danbury Volvo now has plenty of Volvo XC90s in stock."

The Volvo XC90's popularity can be attributed to its beautifully minimalistic approach that offers an elegant, sophisticated interior – often missing in other three-row SUVs. The graceful exterior and variety of engine options, partnered with Volvo's state of the art technology, will keep the driver in the lap of luxury wherever their journey may take them. With 6-7 roomy and comfortable seats, the Volvo XC90 is designed to transport a full family in complete comfort.

Those considering a Volvo XC90 lease will be pleased to know that, with Danbury Volvo, leasing the XC90 can be done for as little as \$429 per month for 36 months (with \$5,119 due at signing and all factory rebates applied). Some models of the XC90 lease at around \$499 a month, based on the options, downpayment, and other fees associated with the purchase of the new XC90. The XC90's features make it a very good vehicle to lease, as any owner will attest.

The vehicle also has up to 30mpg and boasts a horsepower of up to 316hp. Volvo XC90s come in both FWD and AWD options and an impressive variety of colors. The XC90 is also filled with the best of Volvo's technologies, such as the Pilot Assist system, which can lend a helping hand by providing gentle steering support that keeps the car centered in its lane (and at a set speed and distance to vehicles in front). Further, the XC90 utilizes advanced filtration technology that works as part of Volvo's world-first air quality system to help the cabin's internal air remain clean.

Other amenities built into the Volvo XC90 include the Intelligent driver assist technology, which can detect and help drivers avoid a collision with other vehicles, pedestrians, cyclists and large animals ? at any time, day or night. In addition to that, the XC90 also has four HD cameras that give the driver a 360° bird's eye parking view, making parking in confined spaces relatively easy. Volvo?s signature blind spot information system (BLIS?) with steer assist can also ease tension in busy traffic with alerts and active support.

The Volvo XC90 has been compared to the Acura MDX, but when considering the Volvo XC90 vs Acura MDX, Danbury Volvo proudly states that the former comes out on top. The Acura MDX only has a FWD option, with a fuel efficiency of 20 miles per gallon in the city and 27 on the highway, compared to the Volvo XC90?s 30. The Acura MDX also lacks in horsepower, as it has only 290hp. Additionally, the Volvo XC90 boasts leather seating and interior as the standard option, whereas this is an optional upgrade for the Acura MDX.

Gavin says, ?You might think that we?re just saying the Volvo is better because we have to say it, but why trust our word? Feel free to schedule a test drive of the class-leading Volvo XC90 at Danbury Volvo today, and you can see for yourself. Ultimately, choosing between a Volvo XC90 and an Acura MDX comes down to personal preference. But if you're looking for more car for the money, a smoother and refined ride and an unmatched feeling of safety, we think the answer is clear.?

Those who want to purchase a Volvo or simply learn more about Danbury Volvo and their services are welcome to visit the company's website, which also has a number of other Volvo models that can be viewed.
