

Danbury Volvo: V60 XC Is Now Back In Inventory

September 25, 2020

September 25, 2020 - PRESSADVANTAGE -

Danbury, Connecticut based Danbury Volvo is pleased to announce that they have new Volvo V60 Cross Country inventory. Customers are welcome to stop by the dealership today if they wish to look over this car and explore everything it has to offer in person.

Chris Gavin of Danbury Volvo states, "While the COVID-19 pandemic caused some disruptions in the supply chain, we are very happy to announce that we have stocked up on the Volvo Model V60 XC once again. This is one of our most popular vehicles, and even though the situation with our inventory was unfortunate, we still saw a lot of interest from the community." The dealership explains that the Volvo V60 Cross Country is especially popular among drivers with a thirst for adventure as it is one of the highest performing all-terrain vehicles currently out on the market.

The Volvo V60 Cross Country offers unrivaled all-road prowess, higher ground clearance and standard all-wheel-drive. This comes wrapped in a stylish exterior that makes the V60 one of the most visually appealing all-terrain vehicles available, and the preferred option for many of the thrill-seeking adventure enthusiasts looking for a vehicle that can navigate through difficult terrain as easily as it does in the city ? without compromising on appearance or comfort.

The V60 comes at a starting MSRP of \$45,100 (excluding optional equipment as well as destination/delivery fee or any other government fee or charges from the dealer, finance company, or government). Danbury Volvo offers lease options for the V60 Cross Country, starting at around \$429 per month. They note that this will depend on the options chosen, as well as the down payment, and other fees associated with the purchase of a new vehicle. They possess a large selection of model V60s in their inventory, starting at different prices, with various premium options and advantages compared to one another.

The dealership is also aware that many customers compare the Volvo V60 Cross Country to another popular alternative on the market: the 2021 Audi A4. Both vehicles come at a comparable price with similar specifications. When comparing them, however, one option stands out above the other.

Gavin states, "The Volvo V60 XC beats the Audi A4 in most areas, coming out on top with more optional and standard features. The V60 outperforms the A4 not only in raw power, but also looks, comfort and customization. While it would be easy to tell you which option to choose, we will help you see for yourself during a test drive, walking you through the advantages that the V60 offers when compared to the A4. If you are the kind of person that prefers to test your vehicle's performance on the road, you can schedule a test drive of the class-leading Volvo V60 XC at our dealership ? where you will experience what true luxury feels like."

Danbury Volvo states that the 2020 Volvo V60 XC features an 8-speed transmission that outperforms the 2021 Audi A4's 7-speed transmission in all circumstances and situations. Additionally, the V60's standard version features built-in WiFi functionality, which the A4 lacks, as well as Adaptive Cruise Control and optional Heads-up Display. These come together to form an all-terrain vehicle that beats the other in all circumstances. Learn more here: [Volvo V60 vs Audi A4](#).

"Ultimately, whether you choose the V60 or the A4 comes down to your personal preference, but if you are looking for more car for the money, a smoother and refined ride and the feeling of safety that comes with a Volvo, the answer is clear," states Gavin. He continues, "If you are looking for something different, we also possess one of the broadest catalogs of vehicles in the Danbury area. We can help you choose from this wide selection according to your preferences, needs and unique situation, building a custom payment plan and lease according to your requirements."

The company's website offers more details on Danbury Volvo and the different models of vehicles they have for sale. Interested parties may reach out to Chris Gavin to follow up on any inquiries as well. Additionally, they can also be reached through their social media pages.
