

# Sorvita Health Products Announces Name Change to Sorvita Nutra Products, LLC

*October 21, 2014*

October 21, 2014 - PRESSADVANTAGE -

Houston, TX ? In an effort to better and more specifically reflect the mission of providing top-quality dietary supplements to its customers, Sorvita Health Products announced today that it will now be known as Sorvita Nutra Products, LLC.

This change concerns only the name of the company, with the company's logo and all other company branding as well as the location, ownership and product offerings to remain the same. According to company officials, there will be minor updates to the company website and product labels that will exhibit the name change as early as the fourth quarter of 2014.

Sorvita Nutra Products has a complete line of premium-quality dietary supplements for weight loss, men's health and skin care as well as wide offering of vitamins. Each product has undergone comprehensive testing to ensure purity and potency and all its facilities are regularly inspected by the FDA.

One of the company's most popular products is the natural testosterone boosting supplement, Tribulus Terrestris. This supplement has been used by men for centuries to improve physical performance, strength and libido. A plant-based supplement, it contains 95% Steroidal Saponins and 80% Protodiodcin to naturally increase the levels of the hormone testosterone, which can contribute to muscle growth. It is a widely accepted component in the training regimen of athletes, power lifters and bodybuilders around the globe.

The labeling will reflect the company's new name, but customers will still gain all the benefits of this five-star rated product. These include feeling more energized, stronger and an increase in sexual drive.

Customers who regularly purchase Sorvita products through Amazon will continue to receive the same excellent customer service under the company's new name as they have received in the past. All of Sorvita's products will still come with a 100% customer satisfaction guarantee, including the top-sellers, such as Probiotics Chewables or Garcinia Cambogia Extract.

In addition, past and present customers can expect to receive free shipping on purchases of \$35 or more, 24/7-365 service representatives and free educational resources. By visiting <http://www.sorvita.com>, customers can sign up for monthly discounts and specials.

#### About Sorvita Nutra Products

Manufactured in the U.S.A., all Sorvita Nutra Products are produced in a GMP-certified, FDA-inspected facility. The company is dedicated to providing only the highest quality health and weight-loss supplements. Each GMP (Good Manufactured Practices) certified plant is state of the art and employs a team of experienced and knowledgeable research scientists and clinical staff members. Sorvita Nutra Products LLC offers a no-hassle, 100% money back guarantee of all its products.
