

A Hearing Physician in McDonough, GA is Highlighting the Release of a New Hearing Aid Device

September 24, 2020

September 24, 2020 - PRESSADVANTAGE -

McDonough, GA. ? Beltone is pleased to announce the recent release of the Beltone Imagine on August 27th, 2020. The company is a national brand with a local?hearing physician in McDonough, GA.?The new Beltone Imagine hearing device comes equipped with state-of-the-art hearing aid technology allowing for natural sound, never before provided by a hearing aid device. The groundbreaking technology is the first to combine the use of a microphone and receiver within the ear canal.?

It took the company over ten years to research and develop the new style of hearing aid, now called Microphone & Receiver-In-Ear (M&R;IE). The Beltone Imagine provides a reduction in wind noise along with a natural hearing experience with greater depth and localization than ever before.?

?Until Beltone Imagine, hearing aids used algorithms of the ?average ear? shape when delivering sound,? says Dr. John Nelson, vice president, GN Audiology & Medical Affairs. ?But Beltone Imagine is not a one-size-fits-all hearing aid. Most of the time, it will be collecting sound using the microphone in the canal,

delivering that individualized sound. It truly lets each person experience the world with their own ears.?

The device is available in a variety of eight natural colors to match an array of skin tones and hair colors. Each Beltone device also comes equipped with lifetime care and protection services through BelCare. The Beltone Imagine also allows users direct streaming audio options for both Apple and Android devices and 30-hour battery life.?

Beltone provides quality ear care to local communities across the nation and understands the risks of COVID-19 for many of its patients. To help patients with this concern, the company recently implemented an online store for purchasing hearing care accessories and telehealth appointments. This provides patients with the option to meet with an audiologist and make purchases from the comfort and safety of their own homes. For more information about ear care services or the new Beltone Imagine hearing aid device, give them a call at 770-957-9074 or visit them online at <https://www.beltoneusa.com/mcdonough>.?
