

# Charlotte Dumpster Rentals Announces Their Grand Opening

*September 28, 2020*

September 28, 2020 - PRESSADVANTAGE -

Charlotte Dumpster Rentals has just announced their grand opening. That means they are now up and running and serving the roll-off dumpster needs of homeowners and commercial customers in the Charlotte, NC area. This newly opened company specializes in both long- and short-term dumpster rentals. They offer a wide variety of flexible dumpster solutions and their veteran drivers are excellent when it comes to strategically placing a dumpster on any commercial or residential property.

Chris Epps, the spokesperson for the newly opened company, says, "We are thrilled to be up and running here in the Charlotte area. Those who use our services can expect their dumpsters to arrive as scheduled and placed as close as possible to where they would like them to go. People will soon come to find out that we are a company that strives to make renting a roll-off dumpster as simple and convenient as possible. Our customers can also expect only flat-rate pricing with no hidden fees."

Charlotte Dumpster Rentals spokesperson also said that just because they are newly opened not to mistake

that for meaning that they are totally new to what they are doing. He says that he and some others at the company have strong backgrounds in dumpster-related businesses. They have used that experience as a basis to build a company that will be run in a very progressive and efficient manner and be combined with excellent customer service 100% of the time. Epps says that another advantage of them being new is that they use only state-of-the-art trucks and trailers to deliver their dumpsters and all of these dumpsters are in pristine condition and will not take away from the looks of the homes or businesses that they are placed at.

According to the company spokesperson, their dumpsters are the perfect solution for construction, roofing, and other types of renovation companies to keep their job sites safe and tidy during ongoing activities. They also work great for growing companies who are tired of picking up their rubbish disposal areas because their existing trash containers are constantly being overfilled. Epps says commercial businesses also can use their dumpster rental services as a means to facilitate computer recycling & disposal, office furniture disposal, property management cleanouts, and foreclosure cleanouts.

Epps mentioned that they are also a company that will be helping homeowners get rid of the trash and junk that has slowly been accumulating around their homes. He says, "Have you ever driven by a home that looks extremely unsightly because there is a big pile of junk that's accumulated on the side of a driveway or somewhere in their back yard? This can make even the nicest homes look untidy and unkempt. Our roll off dumpsters are the perfect solution for someone in Charlotte's junk removal needs." The company spokesperson stated that homeowners like to rent their dumpsters for such things as Garage Cleanouts, Yard Debris Cleanup, Basement cleanouts, and unwanted Appliance & furniture Removal. He added that they are also very helpful when it comes to uncluttering limited attic space and disposing of hot tubs that have been cut up for easier removal.

As far as convenience goes, Epps says that's one of their main priorities at the company. This is highlighted by the fact that their residential and commercial dumpster customers can order a dumpster drop-off online while sitting comfortably in their home or office. He says that it's something that can be conveniently done 24-hours a day too. All it takes to order a roll-off dumpster drop-off online from Charlotte Dumpster Rentals is for a customer to fill out a simple form, select the dumpster size that they want, and then checkout of their cart. The company spokesperson says that for those that prefer to order a dumpster drop-off by phone, that option certainly is available too. They will be providing dumpster rental to such Charlotte area communities as Huntersville, Concord, Gastonia, Kannapolis, Rock Hill, and Mathews. More information on this newly opened roll-off dumpster rental service can be found on their website.
