

## **Moseler Perkins Groups Announces Company Rebrand to MPG Homes**

*September 28, 2020*

September 28, 2020 - PRESSADVANTAGE -

Moseler Perkins Groups announced the rebrand of its organization to MPG Homes. With its new brand identity, MPG Homes aims to remain as a leader in home buying in Savannah, Georgia, and in Dallas, Texas.

"We are proud to announce a spin off brand. MPG Homes will now be the face of our buying efforts both here in Savannah and in Dallas," the company posted on its Facebook account. MPG Homes' new brand platform has been rolled out across the company's newly redesigned website, <https://mpghomes.co/>.

Founded by business partners Joshua Moseler and Matthew Perkins, MPG Homes is uniquely positioned to meet and exceed its clientele needs. They are helping people in Savannah and its surrounding area with their home selling needs. Only recently, the real estate investment firm likewise expanded its business in the fast-growing city of Dallas.

Meanwhile, MPG Homes assures extensive knowledge of the marketplace. "Our vast understanding of the economics of the region and our deep knowledge of the real estate trends gives us a very unique perspective," the company states.

Using experience and local knowledge, MPG Homes has created an ideal service to help homeowners needing to sell their property quickly. Furthermore, MPG Homes has a network of investors with proven track records of delivering results for home and property purchases.

Another edge of MPG Homes is its simple business process. MPG Homes is not a franchise. They are locally owned and operated. With this, they can buy houses and sell them fast. They simply visit the home. Make an all-cash offer with no obligation, and close the transaction when it is most convenient for the seller.

The company states, "We buy houses in any condition in GA and Dallas, Texas. There are no commissions or fees and no obligation whatsoever."

MPG Homes buys real estate in any condition and has a team and resources to improve the most distressed houses. They buy single-family homes, multi-family homes, apartment buildings, condos, and commercial properties.
