Happy Roof.Net Customer Lauds the Contractor's Effort on a Recent Roof Replacement

October 06, 2020

Fairfax, Virginia - October 06, 2020 -
Roof.Net has just received a glowing review on a recent roof replacement project that they are proud to share. Leaving customers happy with the work they have done for them has become the norm for this highly-rated Northern Virginia roofing contractor. These reviews are also a great source of pride for the company. This new glowing review on Roof.Net?s services can be seen at https://goo.gl/maps/xX5KVvPEvGe54PVq7.

In the 5-star review, Giuseppe Donadio, says, ?I?m very pleased with the quality and craftsmanship of the work done by Ken B. and his roofing crew. They replaced the roof on my townhouse on the day and time promised. In addition to replacing the shingles, they had to replace a fair number of the underlying sheets of plywood. This was all done with the utmost professionalism and courtesy by both Ken and his crew. I really appreciate how thoroughly they cleaned up after themselves. At the end of the day if it wasn?t for an outstanding looking new roof you would not be able to tell that they were event there. A 5-star job.?

This type of review on whole roof replacements has become the norm for what this company considers to be their bread & butter roofing service. It?s most often done on aging roofs that are starting to experience repeated leaking or other structural problems. These are often roofs over 10 years old. Roof.Net?s owner, Ken Briesemeister, stated that the whole process starts with a thorough roof inspection which includes walking an entire roof looking for such things as missing areas of shingles, soft spots, areas where the roof covering is bubbling up, signs of animal & storm damage, and taking a good look at the seal around chimneys, vent pipes, and skylights. He says that once it's been determined that it?s time for a roof replacement, he will supply the owner with a detailed and accurate estimate for the job. Briesemeister mentioned that he does this because his customers don?t need any surprises in the form of additional costs added to the job. He added that once the contract has been agreed upon, he will order the necessary supplies for the job and get the job quickly scheduled once those supplies arrive and have it completed on time.

Many photos of this company?s highly rated roof replacement efforts can be seen on their Facebook page at https://www.facebook.com/roofrepairva.

Briesemeister, says, ?My team and I are pleased to put our over 45 years of combined roofing experience to work every day for our customers. I feel this level of know-how combined with great customer service and superior roofing products is the reason why we can satisfy every single customer that requests us to do a whole roof replacement for them. We are not only proud of every 5-star review that we get on this service, but we feel we have not done our job to the best of our ability if we don?t get that type of review on any whole roof replacement project that we take on.?

The company owner went on to say that roof replacements are not the only quality roofing services that they offer. They are also experts in roof repairs and leak detection. These other roofing services are also highly rated as the following review proves:

Madeline Graham, writes, ?Ken was great to work with for our relatively small job: replacing our chimney flashing. He was super responsive and gave me an estimate within hours of my phone call. He saw that we were open to leaks, so he made a special point to get our job done before a big storm in the forecast. They came on a holiday to fix it up for us before the storm hit! They did a super thorough job, and even added some extra plating we apparently were missing at no extra cost. I would definitely work with Ken again.?

Both of the above-mentioned reviews were left on this Northern Virginia roofing contractor?s Google Maps Business Listing. At present, there are over 400 reviews that have been left on Roof.Net on that same listing and incredibly they still manage to average an overall 5 out of 5-star rating. This roofing contractor also has

the best A+ rating with the BBB and has received awards for their service on the local and national levels. Briesemeister stated that anyone who wants more information on their roof replacement or other roofing services is welcome to call him or visit their website at https://roof.net.
