EPS Landscaping & Tree Service LLC Launches New Customer Service Department

October 05, 2020

Pembroke Pines, Florida - October 05, 2020 -
Pembroke Pines, Florida-based EPS Landscaping & Tree Service LLC is pleased to announce that they have recently launched a new customer service department and phone number. This will make calling and requesting for estimates easier for Broward County, Florida property owners.

EPS Landscaping & Tree Service LLC takes pride in offering all sorts of lawn care, landscape design, tree trimming, tree removal, irrigation and pest control as well as weed control services for residents in the South Florida Tri-County area. They are a family-owned business that has more than two decades of experience in the landscaping industry. In fact, during their 21 years of operation, they have done their best to provide service of the highest quality and show great attention to detail. They have also strived to be open, honest, clear and concise in their lines of communication with their customers. In addition, EPS Landscaping & Tree Service LLC asserts that they value their customers? time and money, so they provide their services in a timely, courteous and professional manner. They do everything they can to make sure that their community is satisfied with their services.

EPS Landscaping & Tree Service LLC primarily offers landscaping and landscape design services.

Landscape design is the act of making modifications to the appearance of outdoor spaces. There are two main kinds of landscape design ? hardscaping and softscaping. Hardscape refers to planning how physical decorative objects are placed in an outdoor space. Some examples of this are driveways, patios, walkways and fences. Softscape defines how plants can be used to improve an outdoor space.

Meanwhile, EPS Landscaping & Tree Service LLC also offers tropical landscaping. Due to its humid climate, Florida is extremely well-suited to landscaping which relies heavily on the use of tropical plants. However, it may be more complicated to plan out tropical landscaping compared to other types of landscaping due to its use of multiple kinds of plants that require varying methods of care.

Another type of landscaping that EPS Landscaping & Tree Service LLC offers is pool landscaping. Just like tropical landscaping, pool landscaping is popular in the greater Florida area. In-ground pools are common in residential areas as they are very useful for escaping the Florida heat. However, these pools are usually not very inviting as they tend not to have landscaping. Pool landscaping will not only make pools and homes more beautiful, it can also be used to add privacy to pool areas.

In addition, EPS Landscaping & Tree Service LLC provides assistance with landscape installation. Landscape installation can take varying amounts of time, depending on the scope of the project. Some may even require architectural consulting due to their complexity. This makes it important to make sure that the landscaping company that one works with has the sufficient credentials to handle any and all landscaping needs.

Besides offering landscaping services, EPS Landscaping & Tree Service LLC also offers a selection of tree services. Tree planting, for instance, not only adds beauty and color to lawns but also helps absorb carbon dioxide and polluted air, which helps people breathe better. Property owners can do tree planting on their own, but it is better to consult with professionals if they want the best results. It should be considered that not all trees can grow and thrive wherever people want them to. EPS Landscaping & Tree Service LLC can offer valuable advice to help their customers ensure that the trees planted will grow strong and healthy.

Due to their dedication to providing excellent customer service, EPS Landscaping & Tree Service LLC has received good reviews from the community they serve. J.C. writes in a 5-Star Google review, ?Highly recommended! Great folks to deal with. Very professional, easy to deal with, very punctual, great and fast work (very detailed and professional) and great price! Will be using them for all my other properties and family properties as well.? Angel Padron also says in another 5-Star Google review, ?I am very happy with this company: they are responsive, professional, courteous and do great work. I definitely recommend them!?

Complete details about the full range of services that the landscaping company offers can be viewed at their official website.
