

ListingPhotosThatSell.com Offers Deals On Real Estate Photography In Tampa

October 09, 2020

October 09, 2020 - PRESSADVANTAGE -

Listing Photos That Sell (LPTS), a Florida-based real estate photography service, is inviting Tampa Bay area realtors to take advantage of the two specials being offered on professional photography in Tampa.

The first special allows real estate agents to get an unlimited number of photos for \$99 with a 24-hour turnaround. The second special includes real estate listing photos, one environmental headshot and a complete floor plan, all for \$129. The special offers started on the 25th of September and will end January 1st 2021.

The Tampa real estate photography company offers affordable and high quality services in Tampa, Clearwater and St. Petersburg, Florida. Listing Photos That Sell is run by Mekhi Greene, the company's founder. Greene is a recent college graduate from Rowan University, and he has studied abroad at the University of Westminster in London on a photography assignment. For the past two years, Mekhi Greene has been actively involved in the professional photography industry. Photography is his passion, and he

spends his free time learning new ways to improve his photography craft. Through his company, Listing Photos That Sell, Mekhi Greene hopes to offer his skills and passion to the Florida real estate community.

"I'm excited to meet real estate agents in the area and provide as much value as possible through my photography," says Mekhi Greene. "I've been an active photographer for two years, so it's cool to be able to share my craft with other people and help realtors sell more homes."

Greene and the Listing Photos That Sell team also produce high quality environmental headshots that clients can either choose to have taken at their homes or at any other preferred location. The Tampa real estate photographer produces twilight images as well, which usually consist of two high quality images of the property.

Listing Photos That Sell is unique among real estate photography services in a number of ways. One of the ways in which the company differentiates itself is the fact that Greene offers same day delivery. One can count on Greene to deliver high quality real estate photos within 24 hours. There is also no limit on the number of photos the real estate photography service takes, which gives the real estate agents a bit more room to choose which images they would like to keep. Listing Photos That Sell places a great deal of emphasis on affordability, and realtors can get work done quickly for much less with Greene's service.

Customer service is an aspect of their work that Listing Photos That Sell considers very important, and real estate professionals can be sure they'll receive great customer service when working with the Tampa real estate photography service.

A number of clients have left excellent 5-star reviews for Greene and the Listing Photos That Sell Team.

"I was looking for a real estate photographer that provided quality work at a reasonable price. Mekhi was professional, responsive and passionate about his work. His prices are very competitive, and his work is worth every penny. I will definitely refer him to others, and I will be using him for future services as a realtor," says Lakeshia O'Neal, a client of Greene's.

Another client, Florida New Home Realty, shared this. "Mekhi's photos and videos help my real estate and new construction marketing. Great Service! I look forward to working with him on many projects."
